From the Chairman's Desk

Brace yourself, the world is changing... fast !

Dear Shareholders,

We have entered an era of irreversible techno-scientific age. The way advances in technology and innovation are gathering momentum, seeing it optimistically as per leading futurist Ray Kurzweil, in few decades both poverty and disease, the world's two worst enemies could be eliminated.

Under this backdrop, as an engineering and technology services provider, we are living in very interesting and challenging times. Now that disruption is a new constant, every business need to be digital to stay afloat.

Our industry continues to evolve. NASSCOM recently launched Future Skills, a platform intended to train over two million IT professionals as well as two million potential professionals and students in job-oriented skills. NASSCOM has recognized as many as 55 new job roles spanning emerging technology areas including artificial intelligence (AI), big data analytics, 3D Printing, IOT, social and mobile, in line with the needs of the industry. This sets the stage for what is popularly called a "fourth industrial revolution" and with robotics connected to this cyber world of computer systems, brings in the birth of "smart factories".

Digitalization of manufacturing from shop floor to the white collar offices is the major trend. From early adoption of ERP in 90's to PLM for maximizing the Supply chain and Manufacturing processes, Industrial IOT with Analytics, the manufacturing sector is expected to commit quite a bit of funds for software and services over the next 10 to 20 years. We seek to leverage the full capabilities of our offerings with broader participation across the enterprise and product development ecosystem—embedding ourselves more deeply at different steps of the value chain.

The way to survive and thrive in this wave of disruption is to collaborate more with your customers and partner with leading engineering technology providers (CAD, CAE, Simulation, Digital Manufacturing). We are investing in next generation technologies of Digital twins and software tools to facilitate factory automation. We continue to invest in newer skills in re-skilling our work force to meet the demands of our customers to grow their business. The start of the journey has been very encouraging, as evidenced by the performance during the last fiscal year, both in quantitative and qualitative terms.

Looking at the performance of FY 2018, I stand satisfied with a consolidated double-digit growth of the Company together with 60% + improvement in our bottom line. Our service lines across Mechanical Engineering Design Services and IT services attracted many interesting projects (end to end program involving design analysis and prototyping), within our existing customer base, which reflects our growing competence aligned with changing market requirements. Company has renewed most of its annuity business from last year to this year, which is again a reflection of our contribution and value partnerships with all our active customers.

For our IT services business, the current year is offering good potential for growth primarily driven by need for automation, robust spending by public and private sector and India being the most preferred IT destination globally.

We continue to operate with the highest level of commitment, excellence, integrity & corporate governance. I believe our core values are the pillars of our growth and are the way forward for continued success of the organization as well as enhancing brand "Onward". The strength of our culture is what makes us more capable and better positioned for the future than it has been at any time in our history. As we head into 2018-19 and beyond, I am more excited than ever about the opportunity to demonstrate that when we do right for our clients and put them first, others stakeholders viz, our shareholders and our employees also win.

Thank you for your continued loyalty & support as we build the Onward Technologies of the future.

Sincerely,

Harish Mehta
Executive Chairman

From the Managing Director's Desk

Dear Shareholders,

FY 17-18 has been a year to celebrate in many ways. The company continued its growth path with a 10.2% growth in top line and 64%+ growth in Profit After Tax (PAT) resulting in Earnings Per Share (EPS) growth of 60%. During the year, Company expanded its infrastructure with opening of new offices in Pune (WTC), Chennai (OMR) & North America (Troy & Cleveland). All this is to ensure the "Quality" & "Quantity" of business at Onward Technologies remains healthy and sustainable, while delivering good margins. At the May, 2018 Board of Directors (BoD) meeting, Company also proposes to pay Dividend for third year in a row.

Further to my last year's note, I am happy to share substantial progress which we have made across various key identified areas which will drive further revenue growth & margin expansion towards doubling the revenue to Rs. 500 crore in the near future.

Our top strategic customers continue to be our focus. I'm pleased to share with you that our revenues from the top 10 customers went up from 30% to 38% in FY 17-18. This percentage has a high probability to go up over 50% in the next 2 years, which is our aim through the continued focused investments and efforts towards these customers. The opportunity to scale with these customers both through current focused service lines of product engineering, manufacturing engineering and new areas like embedded, electronics, digital, etc is more than 20 times their current outsourcing to us. We believe we are rightly positioned, now more than ever before, to achieve the above growth.

Earlier this year, Onward Technologies was listed among the Asia Pacific's top 1000 high growth companies by Financial Times. And again in Sep'17, Onward Technologies was awarded & recognized as "Pride of Maharashtra" award at an event in Pune. We also received numerous recognition & awards from our customers across the regions which is evident with more than 90% annuity contract renewals.

Working towards our Net Zero Debt goal, last year Company repaid close to Rs. 7 crores of external term loan debt with a balance consolidated debt of Rs. 14.98 crores on March, 2018. We are well on track to have net zero debt in the next 18- 24 months. Our (Days Sales Outstanding) DSO has also shown an improvement from average 75 days in past to average 65 days now due to the higher quality of customers that we serve today. We feel confident that we will be able to bring it down further in next 24 months and maintain the same at an average of 50 days.

Last year we also announced strategic Business Transformation partnership with French global industry leader - Dassault Systèmes and entered into services partnership with Michigan based - Altair Engineering to strengthen our capabilities in engineering services domain. Company also made investments in embedded, technical publications and PLM space which will help us to enter into these new domains, bid for larger enterprise deals and partner with our customers better.

We continue to attract & retain exceptional talent with 2500+ employees today serving customers from our various offices globally. I'm particularly pleased that our North American Subsidiary Onward Technologies Inc (OTI) has more than 40% local Americans on its headcount. We have a clear vision of having over 50% local talent in all our primary markets (North America, UK & Germany) to build stronger & deeper relations with the customers. This year we will add more Sales & Client servicing depth in all our international offices to scale the business further.

Looking ahead, Onward Technologies will continue to make the strategic investments needed to serve our customers more effectively and deliver profitable growth for our shareholders. I thank you for your continued support & interest.

Sincerely,

Jigar Mehta
Managing Director

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

A. Management analysis

Engineering services sector benefited substantially from the expansion of engineering industry into various international markets over the years. With the globalization of engineering work, firms have gained access to international markets, along with the improved flow of goods, knowledge, and services. As the global demand for engineering services increases, emerging markets, including India, are expected to play a significant role in addressing such needs, by not only offering cost benefits, but also allowing firms to gain competitive edge through specialized capabilities. Global spending on engineering services is projected to witness steady growth in the coming years. At present, high-tech/telecom and automotive sectors account for a major share of the total spending on engineering services, with the remaining share held primarily by aerospace, industrial and defense sectors.

Engineering services outsourcing market is expected to become increasingly competitive in future. Formerly, production and low-end operations comprised the foremost engineering activities to be outsourced to the international markets. The trend changed with firms opting to outsource other engineering functions, including high-value operations, to overseas markets. Now companies across the world exhibit their expertise in handling all types of engineering processes. Asian countries, in particular India and China, are competing fiercely in the global engineering services outsourcing market.

Several innovative technologies are finding use in the product design and development operations as measures to improve collaborative engineering, and for enhancing functionality and performance of the products. Apart from improving product safety and reliability, the incorporation of latest technologies facilitates the lowering of product design costs, and ensures compliance with various regulatory specifications. Companies providing engineering services need to adopt technologies, which facilitate the convenient, faster, and safer transfer of data. In addition, the focus is being shifted to collaborative working technologies that enable global teams to function concurrently.

Further to the same, with Government of India driving the digital initiatives and high investments in technological transformations (Smart phones, Smart Cities, Autonomous cars, Digital manufacturing, 3D Printing, etc.) indicate an era of high end innovation and technology investments which opens plethora of opportunities for the entire Engineering R&D market in India.

Having mentioned the facts above, the company is positioned uniquely in its segments and the value that it brings to its clientele. Most of the company's current engagements are maturing to value enabling engagements focusing towards solving the complex engineering problems. The Company continues to make investments in key client relationships, near shore centers and strengthening the capabilities or associated CAPEX; as the investments made over past few years have reinforced the confidence with the results on client engagement and reach with value added offerings.

The IT services business expanded the reach and strengthened the presence with esteemed clientele in all the three growth segments: Application Maintenance Services (AMS), Infrastructure Management Services (IMS) and Product Development and System Integration Services (PDSS). It will continue to bring in the growth leveraging the strong presence in USA and India. Investments have been made to strengthen the Leadership Team further and in future the company intends to invest in areas of automation, help-desks etc which will help in margin expansion with sustained growth.

B. Industry overview and developments

The engineering outsourcing scenario has changed a lot in the recent decades and continues to change at a much faster rate now. With changes in consumer demographics and their demands, technological advancements, and various emerging competition from different regions of the world has changed the face of the engineering domain. Listed below are the major engineering outsourcing trends for 2018 and beyond, guided by industry experts –

- **Outsourcing Spends to Increase:** Leading global analysts suggest that the spending in engineering services outsourcing market is set to increase manifold in the coming years. There are many new regions providing quality engineering services at reasonable rates and have a large pool of skilled resources. India being the number one outsourcing destination in the world is set to face stiff competition from many other emerging countries.

Management Discussion and Analysis (Contd.)

- **Cost will not be the Only Factor:** Engineering services were earlier primarily outsourced to a third-party service provider to cut costs. In the future, cost will not be the only reason for outsourcing. Outsourcing engineering services to expert vendors ensures creativity and innovation in the project, as these service providers have the required skills and work force to provide quality, security and sustained support at very cost-effective rates, which will become the key outsourcing reason for the clients.
- **Expectation of Shorter Project Lifecycle:** Consumers today are well informed and knowledgeable when it comes to the new technologies being used in engineering domain. Clients expect to have very short project lifecycles and service providers are pressurized to meet these demands and stay ahead of the competition in the market and grab the market share. More and more enterprises will be leveraging their partnership with their service providers to ensure faster product development lifecycles.
- **Collaborations with Startups will Soar:** With the aim of developing SMART products, more and more engineering service providers will look to tie with startups including manufacturing companies and other industry ecosystem players. This will help them get access to faster prototyping and better niche skills. These partnerships will further help in developing economical versions of products and compete in different pricing segments in this highly competitive market.
- **Market Adjacency to Rise:** In the coming year, enterprises will look towards adjacent markets for better growth and partner with engineering service providers. This will help them in delivering completely new product designs as well as bringing in niche skills and make the entire process of product development cost-effective and smoother.
- **The Next Industrial Revolution:** 2018 and the years after will see a new kind of industrial revolution. This industrial revolution will usher in innovation with the help of new IT solutions. Highly efficient automation systems, which are very important for process improvements, will be soon replacing the legacy automation systems. These new IT solutions and technologies will prove to be the key drivers in the massive increase in the global engineering outsourcing market.

C. Segment/Product wise performance:

Company's engineering operations can broadly be categorized under following groups:

- Product Design
- Simulation Engineering
- Automation Solutions
- Engineering Change Management

Distinct Differentiators of Company's services are:

- Design to Cost / Quality / Time
- Design driven manufacturing culture
- Commitment to R&D, Innovation, Value-add deliverables
- Collaborative Engineering to reduce "time to market"
- Flexible and cost effective Business models

The company offers Mechanical Engineering Solutions to various industries across several domains in Auto, Off-Highway, Industrial & Heavy Engineering, Consumer & Healthcare for customers across USA, Europe & India.

Presently OEM's look for getting more and more complex products to market faster. So many organizations started spending more time on CAE simulations during the design phase itself to save time later. With the unique blend of Deep Design Expertise across domains and CAD & CAE Programs, the company establishes interface between Simulation and CAD during design phase and predicts the product performance leading to spend very little on prototypes and testing later. This helps customers to improve on Product development cost and Time-to-market.

Management Discussion and Analysis (Contd.)

The company targets its growth primarily from its International markets – US, Germany & UK. Our global offices brings us to be closer to our customers’ which in turn helps us in understanding the customer needs better and solve our customers’ issues in a more effective manner. In this process, the company has also rationalized its list of customers and now targets to engage with a limited set. This helps the company to concentrate their energies on customers who have the potential to be large (million dollar) accounts. While doing so the company is also pursuing a chosen few new logos, which help in growth of the enterprise without compromising on the overall objective. Our existing engagements with most of the leading players in the market are renewed and strengthened for scalability.

That reinforces the six key trends driving enhanced ER&D spend across multiple sectors – Sustainability, Connectivity, Localization, Software-led differentiation, Digital engineering and miniaturization.

D. Opportunities, Threats, Risks and Concerns

As mentioned above, there are many opportunities, which are open or will open in days to come, which will change the face of the entire engineering offshoring market. Therefore, market is definitely not a concern.

However, biggest challenge to the ESPs is aligning to the changing need of market and preparing themselves to align to it. To penetrate and create value, one will need to know their customer better and engage at a higher value chain, involving consultative engagements.

Over and above the points listed, the risks and uncertainties include, but are not limited to:

- Fluctuation in foreign exchange rates, therefore impacting overall numbers
- Intense competition in Engineering services including those factors which may affect our cost advantage - wage increases, our ability to attract and retain highly skilled professionals in the global markets we serve
- Attracting more annuity business
- Restrictions on visa & immigration policies
- Ability to invest in development of next-generation offerings and solutions
- The success of the companies in which the Company has made strategic investments

E. Achievements/Testimonials

Company maintained certification for ISO 9001-2015 & ISMS: ISO 27001-2013 standards by TUV Nord as a part of surveillance audit this year.

Over the year, the company received multiple letters of appreciations from many of the clienteles’, which emphasized on the value that Onward has brought to them as a partner. Client focus and client satisfaction remain the primary objective behind all the actions demonstrated by the company and its representatives.

F. Operations Performance – including Subsidiaries

For the FY 17-18, the Company continued to strengthen its position in the Engineering and IT segments.

Consolidated Performance: Operationally, the Company’s top line grew by 9.35% to Rs. 244.46 Cr. from Rs. 223.56 Cr. Net Profit Margins also improved by 63.84% to Rs 6.72 Cr. from Rs. 4.1 Cr. in FY 16-17. As already mentioned before, Company has further strengthened its state of the art facility by expanding in US & India and making investments of close to Rs. 3.0 Cr. (consolidated) as capital investments.

Subsidiaries Performance: Each of Onward’s subsidiaries has contributed to the performance of the company. This is a reflection of all measures taken in terms of putting in right business strategy, hiring key leadership talent; strategic sales force induction and customer engagement have paid off.

Considering the investments being made in international subsidiaries, it is imperative for the company to sustain these measure and bring in sustained growth and margin improvements in future as well.

Management Discussion and Analysis (Contd.)**G. Human Resources**

Building an effective human capital is key which helps the organization in driving and achieving its long-term objectives. HR's role today in building this is key and they work as a true business partner with the business. At Onward, we invigorate employees within our Onward Culture to keep up the good work in key areas, while also encouraging employees to focus more carefully on productivity, quality and timeliness of work.

Company continued to make investments in strengthening its key Leadership Positions and attracting talent to join the company for some of its key senior level positions. Conducive Orientation and Induction is done to align the human capital to company's core values and encourage positive minds. This helps in ensuring an open, free, and empowered culture

Collaborative working is culture at Onward. Employee well-being, corporate social responsibility, job rotation and succession plan is integrated effectively to support business continuity. This is supported by effectively engaging employees in various activities, periodical rewards & recognition, proper role and responsibilities mapping and career planning. Prevalent ESOP scheme is a way to recognize the efforts put in by the top performers towards the organization's success and helps in sinking in the culture of "Our Company".

During the year, Company has Implemented SAP success factors for the centralised employee data and performance management that helps the company to be completely transparent to the employee of its expectations, integrations across the Company and removes any ambiguity.

CORPORATE GOVERNANCE REPORT

I Company's philosophy on corporate governance:

Corporate governance is maximizing the shareholder value in a corporation while ensuring fairness to all stakeholders, customers, employees, investors and other stakeholders of the Company. It is a system by which companies are directed and controlled by the management in the best interest of shareholders and other stakeholders of the Company. Corporate governance stands for responsible and value creating management and control of the Company. The Company believes that compliance with all rules and regulations should be done in true letter and spirit. It therefore has always stuck to such practices that lead to welfare of all the stakeholders.

The Company envisages that good governance goes beyond good financial results and propriety and is a pre-requisite to the attainment of excellent performance in terms of stakeholders' value creation. We believe Corporate Governance is an ethically driven business process that is committed to values, aimed at enhancing an organization's brand and reputation. Hence, it is imperative to establish, adopt and follow best corporate governance practices, thereby facilitating effective management and carrying out our business by setting principles, benchmarks and systems to be followed by the Board of Directors, Management and all Employees in their dealings with Customers, Stakeholders and Society at large.

The Company's policies and practices are not only consistent with the statutory requirements but also underline our commitment to operate in the best interest of the stakeholders in order to build an environment of trust and confidence among all components having conflicting as well as competing interest. The Company firmly believes that corporate governance is a powerful tool to sub-serve the long-term growth of the Company and such practices are founded upon the core values of transparency, professionalism, empowerment, equity and accountability. The Company makes best endeavors to uphold and nurture these core values in all facets of its operations and aim to increase and sustain its corporate value through growth and innovation.

The objective of your Company is not only to achieve excellence in Corporate Governance by conforming to prevalent mandatory guidelines on Corporate Governance, i.e. Securities and Exchange Board of India (SEBI) (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('Listing Obligations'), but also to improve on these aspects on an ongoing basis with a continuous attempt to innovate in adoption of business best practices.

Corporate Governance Report (Contd.)

²Includes membership/chairmanship (excluding Onward Technologies Limited) in Audit Committee and Stakeholders' Relationship Committee of Indian Public Companies (Listed or Unlisted) as required under Regulation 26 of Listing Obligations. Figures in brackets '(') indicate chairmanship.

³Mr. Rahul Rathi was appointed as the Director of the Company w.e.f. 24th April, 2017.

⁴Mr. Parish Meghani was appointed as the Director of the Company w.e.f. 10th May, 2017.

Note : Mrs. Prachi Mehta is daughter and Mr. Jigar Mehta is son of Mr. Harish Mehta, Executive Chairman of the Company. All other Directors of the Company are in no relationship with each other.

B. Independent Directors:

Mr. Pranay Vakil, Mr. Nandkumar Pradhan, Mr. Rahul Rathi and Mr. Parish Meghani were the Independent Directors of the Company as on 31st March, 2018. All the Independent Directors have confirmed that they meet the criteria of 'independence' as mentioned under Listing Obligations. None of the Independent Directors of the Company serve as an Independent Director in more than 7 listed companies.

Meeting of the Independent Directors of the Company was held on 27th February, 2018, to review the performance of Non-Independent Directors (including the Chairman) and the Board as whole, where all the Independent Directors were present. The Independent Directors also reviewed the quality, content and timeliness of the flow of information between the Management and the Board and its Committees which is necessary to effectively and reasonably perform and discharge their duties. Also, the Company has designed a familiarization programme for the independent Directors of the Company. All details of such programs conducted during the year and information required for Independent Directors to familiarize themselves with the business and culture of the Company is also available on the website of the Company: www.onwardgroup.com.

C. Board Meetings:

As a process of good corporate governance, all corporate affairs and matters requiring discussion/decisions by the Board, the Company has a policy for the meetings of Board of Directors and Committee thereof. This policy ensures to systematize the decision-making process at the meetings of Board/Committees, in an informed and most efficient manner.

The Board meetings are held at least once in every quarter with not more than a gap of one hundred and twenty days (120 days) between two meetings. The Board meetings are generally held at Mumbai and Pune. The dates of the Board meetings are fixed well in advance and intimated to the Board members so as to enable them to plan their schedule accordingly. The agenda items are comprehensive and informative in nature to facilitate deliberations and appropriate decisions at the meeting. On selective items, presentations are made to the Board. Information required as per Part A of Schedule II of the Listing Obligations are duly placed before the Board of Directors of the Company. Agenda items, inter alia, include the following:

- Annual operating plans and capital budgets
- Quarterly and annual financial results
- Recommendation of dividend
- Change in constitution of various committees
- Monitoring and noting business transacted by various committees by taking on record minutes of various committees.
- Proposal for amalgamation, merger, acquisitions etc.
- Floating of subsidiaries in India as well as abroad
- Details of investment in joint ventures or collaboration
- New projects and expansion plans

Corporate Governance Report (Contd.)

- General notices of interest of Directors and various disclosure from Directors
- Laying down policies for code of conduct and prevention of insider trading and its implementation
- Laying down ESOP schemes
- Deciding managerial remuneration
- Litigation matters
- Quarterly details of foreign exchange exposures and steps taken to mitigate the risk of adverse exchange rate movements.
- Allotment of shares
- Application to Central Government in various matters relating to the Companies Act, 1956 & Companies Act, 2013
- Any other matters that require the approval of the shareholders.

Four Board meetings were held during the year ended 31st March, 2018. These meetings were held on 22nd May, 2017, 21st July, 2017, 16th October, 2017 and 23rd January, 2018, respectively.

D. Code of conduct:

The Company has laid down a “Code of Conduct” for the members of the Board of Directors and the Senior Management which is also available at the website www.onwardgroup.com. The Code serves as a guide to the Board and Senior Management employees of the Company to make informed and prudent decisions and act on them. Also, annual affirmation of compliance with the Code has been made by the Directors and senior management of the Company. A declaration to this effect signed by the Managing Director of the Company is given along with this report.

The Managing Director has also certified to the Board with reference to the financial statement and other matters as required in the Listing Obligations.

E. Insider Trading Policy:

The Company has a Code of Conduct for Prevention of Insider Trading as required under Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015 to regulate trading in securities by the Directors and designated employees of the Company.

The Code requires prior permission for dealing in the Company’s securities by the Directors and the designated employees and prohibits the purchase or sale of Company’s securities while in possession of unpublished price sensitive information in relation to the Company and during the period when the Trading Window is closed. The company secretary of the Company is responsible for implementation of the Code. Accordingly, the company secretary announces closure of trading windows, free period, declaration of prohibited period, etc. Several forms and declarations are in place to receive periodical information from the Directors, Officers and Designated Employees of the Company, as required in terms of Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015. Timely disclosures are made to the Stock Exchanges of the transactions by any Designated Employee or Director or Promoter of the Company as per the provisions prescribed under said regulations.

F. Whistle Blower Policy:

Your Company has always considered employees as one of the most important part of the organization and showered great respect, security and affection towards each and every employee associated with the Company at different levels. However, the possibility of malpractices occurring in an organization’s operations can never be ruled out and ignorance of this possibility demonstrates poor corporate governance with potentially disastrous consequences. It is for this reason that the Company has come up with a robust whistle blower policy which is also available on the website www.onwardgroup.com, to support the voice and discontent of its employees against the malpractices and

Corporate Governance Report (Contd.)

misconduct if any followed or witnessed in the organization. The said policy is designed and implemented in line with the relevant provisions of the Listing Obligations which provides for vigil mechanism entrusting adequate safeguards against victimization of employees, Directors or any other person who avail the mechanism.

As per the policy, the Company provides a medium to redress the complaints raised by the employees or report any wrong doings that they may notice in the organization. The machinery of the policy ensures that each complaint is treated on its merits and full confidentiality is provided wherever required. The policy also ensures that employees report certain events directly to the Chairman and the senior management of the Company.

G. Risk Management:

In today's challenging and competitive environment, strategies for mitigating inherent risks in accomplishing the growth plans of the Company are imperative. The common risks inter alia are: changes in regulations, competition, business environment, technology, investments, and retention of talent and expansion of facilities. The Company is well aware of risks associated with its business and various operations under execution. Comprehensive risk management system involving identification and classification of risk, adoption of risk mitigation plans and strong mechanism to deal with potential risk is in place, which is being reviewed and monitored periodically to meet the regulatory and other requirements.

The Board of Directors of the Company has designed risk management policy and guidelines to avoid events, situations or circumstances which may lead to negative consequences on the Company's businesses and define a structured approach to manage uncertainty and to make use of these in their decision-making pertaining to all business divisions and corporate functions.

H. Directors' membership in Board committees:

None of the Directors of the Company were members in more than ten committees or acted as the chairperson of more than five committees across all companies in which they were Directors. For the purpose of calculating the said limit chairmanship/membership has been considered only for audit committees and shareholders' grievance committees of the public limited companies, whether listed or not.

I. Shares held by Non-Executive Directors of the Company:

Details in relation to shares and convertible instruments held by Non-executive Directors of the Company as on 31st March, 2018 are as follows:

Sr. No.	Name of the Directors	Designation/ Category	Number of shares/ Convertible Instruments held
1	Mrs. Prachi Mehta	Non-Independent/Non-Executive	141,502 Equity Shares
2	Mr. Pranay Vakil	Independent/ Non-Executive	--
3	Mr. Nandkumar Pradhan	Independent/ Non-Executive	--
4	Mr. Rahul Rathi	Independent/ Non-Executive	--
5	Mr. Parish Meghani	Independent/ Non-Executive	121,318 Equity Shares

III Committees of the Board of Directors:

Your Company has constituted five committees of the Board of Directors. These are:

- A. Audit Committee
- B. Nomination and Remuneration Committee
- C. Stakeholders' Relationship Committee
- D. Banking Committee
- E. Corporate Social Responsibility Committee

Corporate Governance Report (Contd.)

A. Audit committee:

1. Brief description of terms of reference:

The primary objective of the Audit Committee is to monitor and provide effective supervision of the management's financial reporting process and to ensure accurate, timely and proper disclosures and transparency, integrity and quality of financial reporting to the Board of Directors.

- p) Approving the appointment of CFO after assessing the qualification, experience and background etc. of the candidate.

2. Composition:

The Audit Committee comprised of four Non-Executive Directors with Independent Directors forming the majority. The Chairman of the Committee was an Independent Director. During the year under review, four meetings of the Committee were held on: 22nd May, 2017, 21st July, 2017, 16th October, 2017 and 23rd January, 2018, respectively.

The Directors who were members of the Committee as on 31st March, 2018 and the attendance of each of the members is given below:

Sr. No.	Name of the Directors	Designation	Category	No. of meetings attended
1	Mr. Pranay Vakil	Chairman	Independent and Non-Executive	3
2	Mr. Nandkumar Pradhan	Member	Independent and Non-Executive	3
3	Mr. Rahul Rathi ¹	Member	Independent and Non-Executive	4
4	Mr. Parish Meghani ²	Member	Independent and Non-Executive	4

¹Mr. Rahul Rathi was appointed as the member of the Committee from 11th May, 2017.

²Mr. Parish Meghani was appointed as the member of the Committee from 11th May, 2017.

The statutory as well as internal auditors of the Company were invited to attend the meetings. The Business and Operations Heads were also invited to the meetings, as and when required. The Company Secretary of the Company acts as the Secretary to the Committee. The Internal Audit function directly reports to the Committee to ensure its independence.

INDEPENDENT AUDITORS' REPORT ON CONSOLIDATED FINANCIALS STATEMENTS

To

The Members

Onward Technologies Limited

Report on the Consolidated Indian Accounting Standards (Ind AS) Financial Statements

1. We have audited the accompanying consolidated Ind AS financial statements of Onward Technologies Limited ("hereinafter referred to as the Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group"), (refer Note 1 to the attached consolidated financial statements), comprising of the consolidated Balance Sheet as at 31st March, 2018, the consolidated Statement of Profit and Loss (including Other Comprehensive Income), the consolidated Cash Flow Statement for the year then ended and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information prepared based on the relevant records (hereinafter referred to as "the Consolidated Ind AS Financial Statements").

Management's Responsibility for the Consolidated Ind AS Financial Statements

2. The Holding Company's Board of Directors is responsible for the preparation of these consolidated Ind AS financial statements in terms of the requirements of the Companies Act, 2013 (hereinafter referred to as "the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance, consolidated cash flows and changes in equity of the Group in accordance with accounting principles generally accepted in India including the Indian Accounting Standards specified in the Companies (Indian Accounting Standards) Rules, 2015 (as amended) under Section 133 of the Act. The Holding Company's Board of Directors is also responsible for ensuring accuracy of records including financial information considered necessary for the preparation of consolidated Ind AS financial statements. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which has been used for the purpose of preparation of the consolidated Ind AS financial statements by the Directors of the Holding Company, as aforesaid.

Auditors' Responsibility

3. Our responsibility is to express an opinion on these consolidated Ind AS financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act and the Rules made thereunder including the accounting standards and matters which are required to be included in the audit report.
4. We conducted our audit of the consolidated Ind AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act and other applicable authoritative pronouncements issued by the Institute of Chartered Accountants of India. Those Standards and pronouncements require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated Ind AS financial statements are free from material misstatement.
5. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated Ind AS financial statements. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated Ind AS financial statements that give a true and fair view, in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated Ind AS financial statements.

Independent Auditors' Report on Consolidated Financials Statements (Contd.)

6. We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in sub-paragraph 9 of the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated Ind AS financial statements.

Opinion

7. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India of the consolidated state of affairs of the Group as at 31st March, 2018, and their consolidated total comprehensive income (comprising of consolidated profit and consolidated other comprehensive income), their consolidated cash flows and consolidated changes in equity for the year ended on that date.

Other Matters

8. We did not audit the financial statements of two subsidiaries whose financial statements reflect total assets of Rs. 3,232.62 Lakhs and net assets of Rs. 1,096.83 Lakhs as at 31st March, 2018, total revenue of Rs. 5,605.02 Lakhs, total comprehensive income (comprising of profit/ loss and other comprehensive income) of Rs. 331.82 Lakhs and net cash flows amounting to Rs. 655.35 Lakhs for the year ended on that date, as considered in the consolidated Ind AS financial statements. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management, and our opinion on the consolidated Ind AS financial statements in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and our report in terms of sub-section (3) of Section 143 of the Act in so far as it relates to the aforesaid subsidiaries is based solely on the reports of the other auditors.

Our opinion on the consolidated Ind AS financial statements and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors.

9. The comparative financial information of the Group for the year ended 31st March, 2017 and the transition date opening balance sheet as at 1st April, 2016 included in these consolidated Ind AS financial statements, are based on the previously issued statutory financial statements for the years ended 31st March, 2017 and 31st March, 2016 prepared in accordance with the Companies (Accounting Standards) Rules, 2006 (as amended) which were audited by the predecessor auditor, who expressed an unmodified opinion vide reports dated May 22, 2017 and May 16, 2016 respectively. The adjustments to those financial statements for the differences in accounting principles adopted by the Group on transition to the Ind AS have been audited by us. Our opinion is not qualified in respect of this matter.

Report on Other Legal and Regulatory Requirements

10. As required by Section 143 (3) of the Act, we report, to the extent applicable, that:
- We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated Ind AS financial statements.
 - In our opinion, proper books of account as required by law maintained by the Holding Company and its subsidiaries included in the Group in incorporated in India including relevant records relating to preparation of the aforesaid consolidated Ind AS financial statements have been kept so far as it appears from our examination of those books and records of the Holding Company and the reports of the other auditors.
 - The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including other comprehensive income), Consolidated Cash Flow Statement and the Consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account maintained by the Holding Company and its subsidiaries included in the Group incorporated in India including relevant records relating to the preparation of the consolidated Ind AS financial statements.
 - In our opinion, the aforesaid consolidated Ind AS financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act.

Independent Auditors' Report on Consolidated Financials Statements (Contd.)

- e) On the basis of the written representations received from the directors of the Holding Company as on 31st March, 2018 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors of its subsidiary companies, none of the directors of the Group companies incorporated in India is disqualified as on 31st March, 2018 from being appointed as a director in terms of Section 164 (2) of the Act.
- f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Holding Company and its subsidiary companies incorporated in India and the operating effectiveness of such controls, refer to our separate Report in **Annexure A**.
- g) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The consolidated Ind AS financial statements disclose the impact, if any, of pending litigations as at 31st March, 2018 on the consolidated financial position of the Group– Refer Note 28 to the consolidated Ind AS financial statements.
 - ii. The Group had long-term contracts including derivative contracts as at 31st March, 2018 for which there were no material foreseeable losses.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Holding Company and its subsidiary companies incorporated in India during the year ended 31st March, 2018.
 - iv. The reporting on disclosures relating to Specified Bank Notes is not applicable to the Group for the year ended 31st March, 2018.

Independent Auditors' Report on Consolidated Financials Statements (Contd.)

Annexure A To Independent Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Act

1. In conjunction with our audit of the consolidated Ind AS financial statements of the Company as of and for the year ended 31st March, 2018, we have audited the internal financial controls over financial reporting of Onward Technologies Limited (hereinafter referred to as "the Holding Company") and its subsidiary companies, which are companies incorporated in India, as of that date. Reporting under clause (i) of sub section 3 of Section 143 of the Act in respect of the adequacy of the internal financial controls over financial reporting is not applicable to one subsidiary company incorporated in India namely Onward Properties Private Limited, pursuant to MCA notification GSR 583(E) dated 13 June 2017.

Management's Responsibility for Internal Financial Controls

2. The respective Board of Directors of the Holding company and its subsidiary company, to whom reporting under clause (i) of sub section 3 of Section 143 of the Act in respect of the adequacy of the internal financial controls over financial reporting is applicable, which is a company incorporated in India, are responsible for establishing and maintaining internal financial controls based on internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our qualified audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

6. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Independent Auditors' Report on Consolidated Financials Statements (Contd.)

Inherent Limitations of Internal Financial Controls Over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Basis for Qualified Opinion

8. We draw your attention to the following qualification of the opinion on the internal financial controls over financial reporting of Onward eServices Limited, a subsidiary of the Holding Company issued by an independent firm of Chartered Accountants vide its report dated May 09, 2018 and reproduced by us as under:

"According to the information and explanations given to us and based on our audit, the following material weakness has been identified in the operating effectiveness of the Company's internal financial controls over financial reporting as at 31st March, 2018:

- a) The Company's internal financial controls over employee database maintenance and payroll processing were not operating effectively which could potentially result in the Company incorrectly recognising employee costs.

A 'material weakness' is a deficiency, or a combination of deficiencies, in internal financial controls over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis."

Qualified Opinion

9. In our opinion, the holding Company and its subsidiary which is company incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and except for the possible effects of the material weakness described in the Basis for Qualified Opinion paragraph above on the achievement of the objectives of the control criteria, such internal financial controls over financial reporting were operating effectively as of 31st March, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Further, we draw your attention to the following remarks with regard to the internal financial controls over financial reporting of Onward eServices Limited, a subsidiary of the Holding Company issued by an independent firm of Chartered Accountants vide its report dated 9th May, 2018 and reproduced by us as under:

"We have considered the material weakness identified and reported above, in determining the nature, timing, and extent of audit tests applied in our audit of the 31st March, 2018 financial statements of the Company, and the material weakness does not affect our opinion on the financial statements of the Company"

Other Matters

10. Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting in so far as it relates to one subsidiary company, which is a company incorporated in India, is based on the corresponding report of the auditor of such company incorporated in India.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Background : Onward Technologies Limited (“the Group”) is a public limited Group domiciled in India and was incorporated on July 18, 1991 under the provisions of the Companies Act, 1956. The Group is a leading global player in Mechanical Engineering Design and IT Consulting, listed at both Bombay Stock Exchange and National Stock Exchange. The Group has its registered office in Mumbai and another office in Pune. The Group has a branch in United Kingdom.

I. Significant accounting policies:

This note provides a list of the significant accounting policies adopted in the preparation of these consolidated financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation

(i) Compliance with Ind AS

The consolidated financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

The consolidated financial statements up to year ended 31st March, 2017 were prepared in accordance with the accounting standards notified under Companies (Accounting Standard) Rules, 2006 (as amended) and other relevant provisions of the Act.

These financial statements are the first consolidated financial statements of the Group under Ind AS. Refer note 39 for an explanation of how the transition from previous GAAP to Ind AS has affected the Group’s financial position, financial performance and cash flows.

The Board of Directors have authorized these financial statements for issue on May 11th 2018

(ii) Historical cost convention

The consolidated financial statements have been prepared on a historical cost basis, except for the following:

- Certain financial assets and liabilities (including derivative instruments) which are measured at fair value;
- Defined benefit plans — plan assets measured at fair value.

(iii) Amended standards adopted by the Group

The amendment to Ind AS 7 require disclosure of changes in liabilities arising from financing activities, see note 15.

All assets and liabilities have been classified as current or non-current as per the Group’s operating cycle and other criteria set out in the Schedule III of the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realization in cash and cash equivalents, the Group has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.

(b) Principles of Consolidation

(i) Subsidiaries

Subsidiaries are all entities (including structured entities) over which the group has control. The group controls an entity when the group is exposed to, or has right to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the group. They are deconsolidated from the date the control ceases.

The acquisition method of accounting is used to account for business combinations by the group.

Notes to Consolidated Financial Statements (Contd.)

The group combines the financial statements of the parent and its subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses. Intercompany transactions, balances and unrealized gains on transactions between group companies are eliminated. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed wherever necessary to ensure consistency with the policies adopted by the group.

(c) Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker is the Group's Managing Director. Refer note 30 for segment information presented.

(d) Foreign currency translation

(i) Functional and presentation currency

Items included in the consolidated financial statements of the Group are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The consolidated financial statements are presented in Indian rupee (INR), which is the Group's functional and presentation currency.

(ii) Transactions and balances

Foreign currency transactions (including transaction of foreign branches) are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are recognized in profit or loss and are presented in the Statement of Profit and Loss on a net basis.

(iii) Group Companies

The results and financial position of foreign operations (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

Assets and liabilities are translated at closing rates at the date of balance sheet;

Income and expenses are translated at average exchange rates (unless this is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case, income and expenses are translated at the dates of transactions) and

All resulting exchange differences are recognized in other comprehensive income.

On consolidation, exchange differences arising from the translation of any net investment in foreign entities, and of borrowings and other financial instruments designated as hedges of such investments, are recognized in other comprehensive income. When a foreign operation is sold, the associated exchange differences are reclassified to profit or loss, as part of gain or loss on sale.

Goodwill and fair value adjustments arising on the acquisition of a foreign operation are treated as assets and liabilities of the foreign operation and translated at the closing rate.

(e) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are net of returns, trade allowances, rebates, goods and service tax (GST) and amounts collected on behalf of third parties.

Notes to Consolidated Financial Statements (Contd.)

The Group recognizes revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the Group and specific criteria have been met for each of the Group's activities as described below.

(i) Revenue from software products:

Revenue from sale of software products is recognized on receipt of acknowledgement from customers.

(ii) Revenue from time and material contracts:

In respect of revenue received from contracts dependent on time and material basis, revenues and costs are recognized when related service are rendered.

(iii) Revenue from fixed price contracts:

In case of fixed price contracts, revenue is recognized over the life of contract based on the milestones achieved as agreed upon in the contract on "percentage-of-completion" method. Percentage of completion is determined based on the efforts or costs incurred to date as a percentage of total estimated efforts or costs required to complete the project. The efforts or cost expended are used to measure progress towards completion as there is a direct relationship between input and productivity. If the Group does not have a sufficient basis to measure the progress of completion or to estimate the total contract revenues and costs, revenue is recognized only to the extent of contract cost incurred for which recoverability is probable. When total cost estimates exceed revenues in an arrangement, the estimated losses are recognized in the statement of profit or loss in the period in which such losses become probable based on the current contract estimates.

(iv) Revenue from training, annual maintenance and fixed price maintenance contracts:

Revenue through training, annual maintenance contracts and fixed price maintenance contracts are recognized ratably over the period in which services are rendered/ training is provided.

(v) Revenue from sale of user licenses:

Revenue from the sale of user licenses for software applications is recognized on transfer of the title in the user license.

Revenue on time and material contracts are recognized as unbilled revenue when the related services are rendered from the end of last billing up to the reporting date.

(vi) Other Income

Dividend income is recognized in the Statement of Profit and Loss only when the Group's right to receive dividend is established which is generally when the shareholders approve the dividend.

Interest is recognized on time proportionate basis taking into account the amount outstanding and the rate applicable.

(f) Government Grant

Grants from the government are recognized at their fair value when there is a reasonable assurance that the grant will be received and the Group will comply with all the attached conditions.

Government grant relating to income are deferred and recognized in the profit or loss over the period necessary to match them with the costs that they are intended to compensate and presented with other income.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to profit or loss on a straight-line basis over the expected lives of related assets and presented within other income.

Notes to Consolidated Financial Statements (Contd.)

(g) Income tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulations is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred tax assets are recognized for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Current and deferred tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

(h) Leases

As a lessee

Leases of property, plant and equipment, where the Group, as lessee has substantially all the risks and rewards of ownership are classified as finance leases. Assets acquired under finance leases are recognized at the lower of the fair value of the leased assets at inception of the lease and the present value of minimum lease payments. Lease payments are apportioned between the finance charge and the reduction of the outstanding liability. The finance charge is allocated to periods during the lease term at a constant periodic rate of interest on the remaining balance of the liability.

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Group as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease, unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

(i) Impairment of assets

The management periodically assesses, using external and internal sources, whether there is an indication that an asset may be impaired. If an asset is impaired, the Group recognizes an impairment loss as the excess of the carrying amount of the asset over the recoverable amount. Recoverable amount is higher of an asset's or cash generating unit's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. An impairment loss is reversed to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined if no impairment loss had previously been recognized.

Notes to Consolidated Financial Statements (Contd.)

(j) Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

(k) Trade receivables

Trade receivables are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method, less provision for impairment.

(l) Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized as part of the cost of that asset. Other borrowing costs are recognized as an expense in the year in which they are incurred.

(m) Investments and other Financial assets

(i) Classification

The Group classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortized cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

The Group reclassifies debt investments when and only when its business model for managing those assets changes.

(ii) Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss statement.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. The Group classifies its debt instruments as follows:

- **Amortized cost** : Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. A gain or loss on a debt investment that is subsequently measured at amortized cost and is not part of a hedging relationship is recognized in profit or loss when the asset is derecognized or impaired. Interest income from these financial assets is included in other income using the effective interest rate method.

Notes to Consolidated Financial Statements (Contd.)

Equity instruments

The Group subsequently measures equity investment at fair value. The Group's Management elects to present fair value gains and losses on equity investments in other comprehensive income on an instrument by instrument basis.

(iii) Impairment of financial assets

The Group assesses on a forward looking basis the expected credit losses associated with its assets carried at amortized cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Refer Note 34 for details of credit risk.

For trade receivables, the Group applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognized from initial recognition of the receivables.

(iv) Derecognition of financial assets

A financial asset is derecognized only when

- The Group has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the group evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognized. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognized.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognized if the Group has not retained control of the financial asset. Where the Group retains control of the financial asset, the asset is continued to be recognized to the extent of continuing involvement in the financial asset.

(n) Derivatives

The Group enters into certain derivative contracts to hedge risks which are not designated as hedges. Such contracts are accounted for at fair value through profit or loss and are included in Other income or Other expenses, as the case may be.

The full fair value of a derivative is classified as a Non-current Asset or liability when the remaining maturity of the hedged item is more than 12 months; it is classified as a current asset or liability when the remaining maturity of the hedged item is less than 12 months.

(o) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Group or the counterparty.

(p) Property, plant and equipment

All items of property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Notes to Consolidated Financial Statements (Contd.)

Subsequent costs are included in the asset's carrying amount or recognized as a consolidated asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a consolidated asset is derecognized when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Depreciation methods, estimated useful lives and residual value

Depreciation is provided on the straight-line method over the useful lives of assets as prescribed in Schedule II to the Companies Act, 2013 (Act).

Leasehold improvements are depreciated over the period of the lease agreement.

The asset's residual values and useful lives are reviewed and adjusted if appropriate, at the end of the reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss within other income/ other expenses respectively.

Transition to Ind AS

On transition to Ind AS, the Group has elected to continue with the carrying value of all of its property, plant and equipment recognized as at 1st April, 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

(q) Intangible assets

Intangible assets are stated at acquisition cost net of tax/ duty credits availed, if any, and net of accumulated amortization. Gains or losses arising from the retirement or disposal of an intangible asset are determined as the difference between the net disposal proceeds and the carrying amount of the asset and recognized as income or expense in the profit or loss. Intangible assets are amortized on the straight line method as follows:

Asset	Useful life
Software	2 to 6 years

Transition to Ind AS

On transition to Ind AS, the Group has elected to continue with the carrying value of all of intangible assets recognized as at 1st April, 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of intangible assets.

(r) Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of financial year which are unpaid. Trade and other payables are unsecured and are presented as current liabilities unless payment is not due within twelve months determined by the Group after the reporting period. They are recognized initially at their fair value and subsequently measured at amortized cost using the effective interest method.

(s) Borrowings

Borrowings are initially recognized at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortized cost. Any differences between the proceeds (net of transaction costs) and the redemption amount is recognized in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognized as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalized as a prepayment for liquidity services and amortized over the period of the facility to which it relates.

Notes to Consolidated Financial Statements (Contd.)

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been distinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss as other income/(expenses).

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the consolidated financial statements for issue, not to demand payment as a consequence of the breach.

(t) Provisions and contingent liabilities

Provisions are recognized when the Group has a present, legal or constructive obligation as a result of a past event and it is probable that an outflow of resources will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made. Provisions are determined based on the best estimate required to settle the obligation at the Balance Sheet date. Provisions are reviewed at each Balance Sheet date and adjusted to reflect current best estimates. Provisions are not recognized for future operating losses.

Contingent liabilities are disclosed by way of a note to the consolidated financial statements when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

(u) Employee Benefits

(i) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

(ii) Other long-term employee benefit obligations

The liabilities for privileged leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognized in profit or loss. The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

(iii) Post-employment obligations

The Group operates the following post-employment schemes:

(a) Defined benefit plan—gratuity

(b) Defined contribution plans - provident fund, employee state insurance scheme and social security contributions.

Notes to Consolidated Financial Statements (Contd.)

(a) Defined benefit plans - Gratuity

The Group provides for gratuity, a defined benefit plan (the "Gratuity Plan") covering eligible employees in accordance with the Payment of Gratuity Act, 1972. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death or termination of employment, of an amount based on the respective employee's salary and the tenure of employment.

The liability or asset recognized in the balance sheet in respect of defined benefit gratuity plan is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognized immediately in profit or loss as past service cost.

(b) Defined contribution Plans – Provident Fund, Employee State Insurance Scheme.

The Group pays provident fund, employee state insurance and social security contributions for all employees to publicly administered funds as per local regulations. The Group has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognized as employee benefit expense when they are due.

(iv) Share-based payments

Employee options are provided to employees via the Onward ESOP Scheme 2009. The fair value of the options granted under the Onward ESOP Scheme is recognized as employee benefit expense with a corresponding increase in equity. The total amount to be expensed is determined by reference to the fair value of the options granted:

- including any market performance conditions (e.g. the entity's share price)
- excluding the impact of any service and non-market performance vesting conditions (e.g. profitability, sales growth targets and remaining an employee of the entity over a specified time period), and
- including the impact of any non-vesting conditions (e.g. the requirement for employees to save or holding shares for specified period of time).

The total expenses is recognized over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. At the end of each period, the entity revises its estimates of the number of options that are expected to vest based on the non-market vesting and service conditions. It recognizes the impact of the revision to original estimates, if any, in profit or loss, with a corresponding adjustment to equity.

(v) Contributed equity

Equity shares are classified as equity.

Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

Notes to Consolidated Financial Statements (Contd.)

(w) Dividends

Provision is made for the amount of any dividend declared, being appropriately authorized and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

(x) Earnings per share

(i) Basic earnings per share

Basic earnings per share is calculated by dividing

- the profit attributable to owners of the Group
- by the weighted average number of equity shares outstanding during the financial year.

(ii) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

(y) Rounding of amounts:

All amounts disclosed in the consolidated financial statements and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III, unless otherwise stated.

2. Critical judgements and estimates

The preparation of financial statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. Management also needs to exercise judgement in applying the Group's accounting policies. This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed.

Judgements

In the process of applying the Group's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognized in the financial statements:

i. Legal contingencies

The Group has received various orders and notices from tax authorities in respect of direct taxes. The outcome of these matters may have a material effect on financial position, results of operation of cash flows. Management regularly analyzes current information about these matters and provides provisions for probable contingent losses including the estimate of legal expenses to resolve the matters. In making the decisions regarding the need for loss provisions, management considers the degree of probability of an unfavorable outcome and the ability to make a sufficiency reliable estimate of the amount of loss. The filing of suit or formal assertion of a claim against the Group or the disclosure of any such suit or assertions, does not automatically indicate that a provision of a loss may be appropriate.

ii. Segment reporting

Ind-AS 108 Operating Segments requires management to determine the reportable segments for the purpose of disclosure in financial statements based on the internal reporting reviewed by Chief Operating Decision Maker (CODM) to assess performance and allocate resources. The standard also requires management to make judgments with respect to aggregation of certain operating segments into one or more reportable segment.

Notes to Consolidated Financial Statements (Contd.)

The Group has determined that the Chief Operating Decision Maker (CODM) is the Managing Director, based on its internal reporting structure and functions. Operating segments used to present segment information are identified based on the internal reports used and reviewed by the Managing Director to assess performance and allocate resources.

Critical estimates

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

i. Share-based payments

The Group initially measures the cost of equity-settled transactions with employees using the Black-Scholes model to determine the fair value of the options. Estimating the fair value of the share-based payment transactions requires determination of the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires determination of the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them. The assumptions and models used for estimating the fair value for share-based payments are disclosed in Note 37.

ii. Useful lives of property, plant and equipment and intangible assets

The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. Increasing an asset's expected life or its residual value would result in a reduced depreciation charge in the statement of profit and loss.

The useful lives and residual values of assets are determined by management at the time the asset is acquired and reviewed annually for appropriateness. The lives are based on historical experience with similar assets as well as anticipation of future events which may impact their life such as changes in technology.

iii. Impairment of Trade Receivables

The impairment provisions for financial assets are based on assumptions about risk of default and expected loss rates. The Group uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Group's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

iv. Defined benefit obligations

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation. The mortality rate is based on Indian Assured Lives Mortality (2006-08) Ultimate. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates. For further details about gratuity obligations are given in Note 18.

Notes to Consolidated Financial Statements (Contd.)

(All amounts in Rs. Lakhs, unless otherwise stated)

A Defined contribution plan

(i) Provident fund

The Group has certain defined contribution plans. Contributions are made to provident fund for employees at the rate of 12% of basic salary as per regulations. The contributions are made to registered provident fund administered by the government. The obligation of the Group is limited to the amount contributed and it has no further contractual nor any constructive obligation. The expense recognised during the period towards defined contribution plan is Rs. 451.43 lakhs (31st March, 2017 - Rs. 385.22 lakhs).

B Gratuity

The Group provides for gratuity for employees in India as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/termination is the employees last drawn basic salary per month computed proportionately for 15 days salary multiplied for the number of years of service. The gratuity plan is a funded plan and is administered through group gratuity scheme with Life Insurance Corporation of India.

The Payment of Gratuity (Amendment) Act, 2018 was notified by the Central Government on 29 March 2018. The amendment increases the existing ceiling limit of the amount of gratuity payable to employees who have completed five years of continuous service from rupees 10 lakhs to rupees 20 lakhs. The amendment has also increased the maximum maternity leave from 12 weeks to 26 weeks in the Payment of Gratuity Act 1972 consistent with the requirement in the Maternity Benefit Act, 1961. Maternity leave to the extent specified in the act shall be excluded while determining the period of continuous service for women employees.

Due to the change, the Company has recognized past service cost of Rs. 3.30 lakhs for the year ended 31st March, 2018. Refer the table below for further details of the same.

I The amounts recognised in balance sheet and movements in the net benefit obligation over the year are as follows:

Notes to Consolidated Financial Statements (Contd.)

(All amounts in Rs. Lakhs, unless otherwise stated)

II The net liability disclosed above relates to funded plans are as follows :

Particulars	31 st March, 2018	31 st March, 2017	1 st April, 2016
Present value of funded obligation	238.07	198.33	169.21
Fair value of plan assets	(18.30)	(5.75)	(7.41)
Deficit	219.77	192.58	161.80

The Group has no legal obligation to settle the deficit in the funded plan with an immediate contribution or additional one-off contributions.

III Significant estimates

The significant actuarial assumptions were as follows :

Particulars	31 st March, 2018	31 st March, 2017	1 st April, 2016
Discount rate	7.90%	7.60%	8.00%
Salary growth rate	3.00%	3.00%	3.00%
Expected return on plan assets	7.60%	8.00%	7.90%
Withdrawal rate	2.00%	2.00%	2.00%
Expected average remaining working lives of employees (in years)			
- for employees of Onward Technologies Limited	19.61	19.71	19.77
- for employees of Onward eServices Limited	21.41	21.63	21.39

IV Sensitivity of actuarial assumptions

The sensitivity of defined obligation to changes in the weighted principal assumptions is:

Assumption	Impact on defined benefit obligation	
	31 st March, 2018	31 st March, 2017
Discount rate		
1 % increase	(23.79)	(22.38)
1 % decrease	28.57	26.59
Salary growth rate		
1 % increase	26.55	25.02
1 % decrease	(22.43)	(21.42)
Withdrawal Rate		
1 % increase	16.66	14.33
1 % decrease	(18.94)	(16.68)

The above sensitivity analyses are based on a change in an assumption while holding all the other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

Projected benefits payable from the fund in future years from the date of reporting:

Particulars	31 st March, 2018	31 st March, 2017
Less than a year	24.34	5.00
Between 1 to 5 years	53.68	63.84
Between 6 to 10 years	249.40	234.18
Total	327.42	303.02

The weighted duration of the defined benefit obligation for Onward Technologies Limited is 17.88 years. (31st March, 2017 : 18.29 years)

The weighted duration of the defined benefit obligation for Onward e-Services Limited is 21.73 years. (31st March, 2017 : 22.31 years)

V The major categories of plan assets are as follows:

Particulars	31 st March, 2018	31 st March, 2017	1 st April, 2016
Funds managed by insurer	100%	100%	100%

VI Risk Exposure

Through its defined benefit plan, the group is exposed to a number of risks, the most significant of which are detailed below:

Asset volatility

The plan liabilities are calculated using a discount rate set with reference to bond yields; if plan assets underperform this yield, this will create a deficit. All plan assets are maintained in a trust fund managed by a public sector insurer i.e., LIC of India. LIC has a sovereign guarantee and has been providing consistent and competitive returns over the years. The group has opted for a traditional fund wherein all assets are invested primarily in risk averse markets. The group has no control over the management of funds but this option provides a high level of safety for the total corpus. A single account is maintained for both the investment and claim settlement and hence, 100% liquidity is ensured. Also, interest rate and inflation risk are taken care of.

Changes in bond yields

A decrease in bond yields will increase plan liabilities, although this will be partially offset by an yields increase in the value of the plans' bond holdings.

Future salary escalation and inflation risk

Since price inflation and salary growth are linked economically, they are combined for disclosure purposes. Rising salaries will often result in higher future defined benefit payments resulting in higher present value of liabilities. Further, unexpected salary increases provided at the discretion of the management may lead to uncertainties in estimating this increasing risk.

Asset-Liability mismatch risk

Risk which arises if there is a mismatch in the duration of the assets relative to the liabilities. By matching duration with the defined benefit liabilities, the group is successfully able to neutralize valuation swings caused by interest rate movements. Hence, companies are encouraged to adopt asset-liability management.

C Leave Encashment

The leave obligations cover the Group's liability for privilege leave which are as follows :

Particulars	31 st March, 2018	31 st March, 2017	1 st April, 2016
Current leave obligations expected to be settled within the next 12 months	29.89	23.27	25.80

i) Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the group has classified its financial instruments into three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

Level 1 : Level 1 hierarchy includes financial instruments measured using quoted prices. However the group does not have any financial instruments that are measured using Level 1 inputs.

Level 2 : The fair value of derivatives is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in Level 2.

Level 3 : If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

ii) Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include:

- The fair value of forward foreign exchange contracts is determined using forward exchange rates at the balance sheet date

iii) Valuation process

Specific valuation techniques used to value financial instruments include the fair value of foreign exchange forward contracts using forward exchange rates at the balance sheet date.

iv) Fair value of financial assets and liabilities measured at amortised cost

The fair value of all financial instruments carried at amortised cost are not materially different from their carrying amounts, since they are either short-term in nature or the interest rate applicable are equal to the current market rate of interest.

32 Financial risk management

The Group's activities expose it to market risk, liquidity risk and credit risk. This note explains the sources of risk which the entity is exposed to and how the entity manages the risk.

(A) Credit risk

(i) Credit risk management

The Group is exposed to credit risk from its operating activities (primarily trade receivables) and from deposits with banks and other financial instruments.

Notes to Consolidated Financial Statements (Contd.)

(All amounts in Rs. Lakhs, unless otherwise stated)

For banks and other financial institutions, only high rated banks/ financial institutions are accepted. The balances with banks, security deposits are subject to low credit risk and the risk of default is negligible or nil. Hence, no provision has been created for expected credit loss for credit risk arising from these financial assets. The Group considers the probability of default upon initial recognition of asset and whether there has been a significant increase in the credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk the group compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportive forward-looking information, for eg, external credit rating (to the extent available), actual or expected significant adverse changes in business, financial or economic conditions that are expected to cause a significant change to borrower's ability to meet its obligations.

Trade Receivables

The credit risk from customer receivables is recorded and monitored on an ongoing basis. Responsibilities and duties relating to credit risks are governed by an internal directive. This mainly concerns the stipulation of payment terms, fixing of credit limits, release of deliveries, and receivables monitoring. The credit risk is considered low given the sound credit ratings and past history of timely payments being made by the customers.

Reconciliation of loss allowance provision

Loss allowance on 1st April, 2016	-
Changes in loss allowance	60.32
Loss allowance on 31st March, 2017	60.32
Changes in loss allowance	21.00
Loss allowance on 31st March, 2018	81.32

(B) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due. Due to the dynamic nature of the underlying business, the Group maintains flexibility in funding by maintaining availability under committed credit lines.

(i) Maturities of financial liabilities

(C) Market risk

i) Foreign currency risk

The Group operates internationally and thereby exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to the USD, Euro and GBP. Foreign exchange risk arises from future commercial transactions and recognised assets denominated in a currency that is not the Group's functional currency (INR). The Group uses foreign exchange forward contracts to hedge its exposure in foreign currency risk. The risk is measured through forecast of foreign currency transactions.

i) Foreign currency risk exposure

The Group's exposure to foreign currency risk at the end of the reporting period expressed in INR, are as follows :-

Particulars	31 st March, 2018			31 st March, 2017			1 st April, 2016

Notes to Consolidated Financial Statements (Contd.)

ii) Sensitivity

The sensitivity of profit and loss to changes in the exchange rates arises mainly from foreign currency denominated financials instruments:

	Impact on Profit after tax	
	31 st March, 2018	31 st March, 2017
USD sensitivity		
INR/USD - Increase by 5% (31 st March 2017 - 5%)	(5.35)	(27.82)
INR/USD - Decrease by 5% (31 st March 2017 - 5%)	5.35	27.82
EURO sensitivity		
INR/Euro - Increase by 5% (31 st March 2017 - 5%)	9.68	12.35
INR/Euro - Decrease by 5% (31 st March 2017 - 5%)	(9.68)	(12.35)
GBP sensitivity		
INR/GBP - Increase by 5% (31 st March 2017 - 5%)	14.59	0.19
INR/GBP - Decrease by 5% (31 st March 2017 - 5%)	(14.59)	(0.19)

II) Interest rate risk

- (i) The Group's interest rate risk arises from long-term and short-term borrowings. Borrowings obtained at variable rates expose the Group to cash flow interest rate risk. Borrowings issued at fixed rates expose the Group to fair value interest rate risk.

Management closely tracks the base interest rate movements on regular basis. Based on regular review, Management assesses the need to hedge interest rate risk. Management reviews the future movement in base rate against different factors such as overall micro and macro economic factors, liquidity in the spending cycle. Further, on a regular basis, Management assesses the possibility of entering into new facilities which would reduce the future finance cost which helps the Management to mitigate risk related to interest rate movement.

The exposure of the Company's borrowings to interest rate changes at the end of the reporting period are as follows:

	As at 31 st March, 2018	As at 31 st March, 2017	As at 1 st April, 2016
Variable rate borrowings	2,253.63	2,422.31	1,963.45
Fixed rate borrowings	-	105.11	395.92
Total borrowings	2,253.63	2,527.42	2,359.37

Sensitivity

The Group's policy is to minimize the interest rate cash flow risk exposure on borrowing. The Group has exposure to local currency as well as foreign currency. The local currency loans are linked to bank base rate/ marginal cost of funds based lending (MCLR) while the foreign currency loans are linked to prime lending rate.

The sensitivity of profit or loss to changes in the interest rates is tabulated below:

	Impact on Profit after tax	
	31 st March, 2018	31 st March, 2017
Interest rate - Increase by 50 basis points (50bps) *	(11.69)	(10.96)
Interest rate - Decrease by 50 basis points (50bps) *	11.69	10.96

* Holding all other variables constant

33 Capital Management

a) Risk management

The Group's objectives when managing capital are to safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders, and maintain an optimal capital structure to reduce the cost of capital. For the purpose of the Group's capital management, capital includes issued equity capital and all other equity reserves attributable to the equity holders of the parent. The primary objective of the Group's capital management is to maximise the shareholders value. In order to achieve this objective, the Group's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements.

No changes were made in the objectives, policies or processes for managing capital during the years ended 31st March, 2018 and 31st March, 2017.

34 The list of standards issued but not yet effective:

The Ministry of Corporate Affairs (MCA) has notified the Companies (Indian Accounting Standards) Amendment Rules, 2018 (the 'Rules') on March 28, 2018. The rules notify the new revenue standard Ind AS 115, Revenue from contracts with customers and also bring in amendments to existing Ind AS. The rules shall be effective from reporting periods beginning on or after 1st April, 2018 and cannot be early adopted.

Introduction of Ind AS 115, 'Revenue from contracts with customers':

Ind AS 115, Revenue from contracts with customers deals with revenue recognition and establishes principles for reporting useful information to users of financial statements about the nature, amount, timing and uncertainty of revenue and cash flows arising from an entity's contracts with customers. Revenue is recognised when a customer obtains control of a promised good or service and thus has the ability to direct the use and obtain the benefits from the good or service in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods and services. The standard replaces Ind AS 18 Revenue and Ind AS 11 Construction contracts and related appendices. The Group is in the process of evaluating the impact on the financial statements in terms of the amount and timing of revenue recognition under the new standard.

Amendment to Ind AS 21, 'Effect of changes in foreign exchange rates':

The MCA has notified Appendix B to Ind AS 21, Foreign currency transactions and advance consideration. The appendix clarifies how to determine the date of transaction for the exchange rate to be used on initial recognition of a related asset, expense or income where an entity pays or receives consideration in advance for foreign currency-denominated contracts. For a single payment or receipt, the date of the transaction should be the date on which the entity initially recognises the non-monetary asset or liability arising from the advance consideration (the prepayment or deferred income/contract liability). If there are multiple payments or receipts for one item, date of transaction should be determined as above for each payment or receipt. The Group is in the process of evaluating the impact on the financial statements under the new standard.

Amendment to Ind AS 40, 'Investment Property':

The amendments to Ind AS 40 clarify that transfers to, or from, investment property can only be made if there has been a change in use that is supported by evidence. A change in use occurs when the property meets, or ceases to meet, the definition of investment property. A change in intention alone is not sufficient to support a transfer. The list of evidence for a change of use in the standard was re-characterised as a non-exhaustive list of examples and scope of these examples have been expanded to include assets under construction/development and not only transfer of completed properties. The Group does not have any investment property and therefore the amendment is not expected to have any impact on the financial statements.

Notes to Consolidated Financial Statements (Contd.)

(All amounts in Rs. Lakhs, unless otherwise stated)

Amendment to Ind AS 12, 'Income taxes':

The amendments clarify the accounting for deferred taxes where an asset is measured at fair value and that fair value is below the asset's tax base. They also clarify certain other aspects of accounting for deferred tax assets set out below:

- A temporary difference exists whenever the carrying amount of an asset is less than its tax base at the end of the reporting period.
- The estimate of future taxable profit may include the recovery of some of an entity's assets for more than its carrying amount if it is probable that the entity will achieve this. For example, when a fixed-rate debt instrument is measured at fair value, however, the entity expects to hold and collect the contractual cash flows and it is probable that the asset will be recovered for more than its carrying amount.
- Where the tax law restricts the source of taxable profits against which particular types of deferred tax assets can be recovered, the recoverability of the deferred tax assets can only be assessed in combination with other deferred tax assets of the same type.
- Tax deductions resulting from the reversal of deferred tax assets are excluded from the estimated future taxable profit that is used to evaluate the recoverability of those assets. This is to avoid double counting the deductible temporary differences in such assessment.

The Group is in the process of evaluating the impact on the financial statements under the new standard.

Employee Stock Option Plan

The Company instituted the 2009 plan for all eligible employees in pursuance of a special resolution approved by the shareholders at the extraordinary general meeting held on August 31, 2009. Scheme covers grant of options to specified permanent employees of the Company as well as its subsidiaries.

Pursuant to scheme, the Company has granted options each to eligible employees at an exercise price of Rs. 10 per equity share of Rs. 10 each. Under the term of scheme, the vesting period shall commence on the expiry of one year from the date of grant of the options to the employees and it will be spread equally over 4 years. 25% of the options will vest in the employees at the end of first year, 25% at the end of second year, 25% at the end of third year and balance 25% at the end of fourth year from the grant date.

The employee stock options granted shall be capable of being exercised within a period of one year from the date of vesting the options, they would be exercisable by the option holder and the shares arising on exercise of such options shall not be subject to any lock-in period. When exercisable, each option is convertible into four equity share of the Company. Further, in the case of termination of employment, all non-vested options would stand cancelled. Options that have vested but have not been exercised can be exercised within the time prescribed as mentioned above, failing which they would stand cancelled.

Set out below is the summary of the options granted under the plan :

Particulars	31 st March 2018	31 st March 2017
	No. of Options	No. of Options

Fair value of the options granted

The fair value at the grant date is determined using the Black Scholes Model which takes into account the exercise price, the term of the options, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of the option.

The model inputs for options granted during the year ended 31st March, 2018 and 31st March, 2017 included :

Transition to Ind AS

These are the Group's first financial statements prepared in accordance with Ind AS.

The accounting policies set out in Note 1 have been applied in preparing the financial statements for the year ended 31st March, 2018, the comparative information presented in these financial statements for the year ended 31st March, 2017 and in the preparation of an opening Ind AS balance sheet at 1st April, 2016 (the Group's date of transition to Ind AS). In preparing its opening Ind AS balance sheet, the Group has adjusted the amounts reported previously in financial statements prepared in accordance with the accounting standards notified under Companies (Accounting Standards) Rules, 2006 (as amended) and other relevant provisions of the Act (previous GAAP or Indian GAAP). An explanation of how the transition from previous GAAP to Ind AS has affected the Group's financial position, financial performance and cash flows is set out in the following tables and notes.

I Exemptions availed**a) Deemed cost - Property, plant and equipment (PPE), intangible assets**

Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its property, plant and equipment and intangible assets as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition after making necessary adjustments for de-commissioning liabilities. This exemption can also be used for intangible assets. Accordingly, the Group has elected to measure all of its property, plant and equipment and intangible assets at their previous GAAP carrying value.

b) Cumulative translation difference

Ind AS 101 permits cumulative translation gains and losses to be reset to zero at the transition date. This provides relief from determining cumulative translation differences in accordance with Ind AS 21 from the date a subsidiary or equity method investee was formed or acquired.

The group elected to reset all the cumulative translation gains and losses to zero by transferring it to opening retained earnings as its transition date.

c) Share based payments

Ind AS 101 permits a first-time adopter to apply Ind AS 102, Share-based payment, to equity instruments that remain unvested as of the transition date. Accordingly, these options have been measured at fair value as against intrinsic value previously under IGAAP. The excess of stock compensation expenses measured using fair value over cost recognized under IGAAP using intrinsic value has been adjusted in 'Share Option Outstanding account' with corresponding impact taken to the retained earnings as on the transition date.

II Exceptions applied**a) Estimates**

An entity's estimates in accordance with Ind AS at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were in error. Ind AS estimates as at 1st April, 2016 are consistent with the estimates as at the same date made in conformity with previous GAAP.

b) Classification and measurement of financial assets

Ind AS 101 requires an entity to assess classification and measurement of financial assets (investments in debt instruments) on the basis of the facts and circumstances that exist at the date of transition to Ind AS.

Cash and cash equivalents as at 31st March, 2017		357.02	(1,483.89)	(1,126.87)

Note : Under the previous GAAP, the "Balance held as security against bank guarantees" was disclosed as a part of Cash and bank balances. However, under Division II to Schedule III, the same is to be disclosed as Bank balances other than cash and cash equivalent and accordingly the Cash and Cash equivalents have reduced by Rs. 27.12 as on 31st March, 2017 and by Rs. 9.51 as on 1st April, 2016.

Notes to first-time adoption

1 Employee Stock Option expenses

Under the previous GAAP, the cost of equity-settled employee share based plan were recognized using the intrinsic value method. Under Ind AS, the cost of equity settled share-based payment plan is recognized based on the fair value of the options as at the grant date. Consequently, the profit for the year ended 31st March, 2017 reduced by Rs. 142.14 lakhs. There is no impact on total equity as on 1st April, 2016.

2 Derivative Financial Instruments - Forward contracts

Under Ind AS, the derivative financial instrument i.e. the foreign currency forward exchange contracts have been fair valued through profit or loss as per Ind AS109. The total equity decreased by Rs. 6.30 lakhs (1st April 2016 : Rs. 6.30 lakhs).

3 Security Deposits

Under the previous GAAP, interest free security deposits (that are refundable in cash on the completion of the lease term) are recorded at their transaction value. Under Ind AS, all the financial assets are required to be initially recognized at fair value. Accordingly, the Group has fair valued these security deposits under Ind AS. Difference between fair value and transaction value of security deposits has been recognized as prepaid rent. Consequent to this change, total equity decreased by 1.62 lakhs as at 31st March, 2017 (1st April 2016 : Rs. 1.45 lakhs). The profit for the year ended 31st March, 2017 reduced by 0.17 lakhs due to amortisation of prepaid rent which is partially offset by notional interest income recognized on security deposit.

4 Proposed dividend

Under the previous GAAP (upto 31st March, 2016), dividends proposed by the board of directors after the balance sheet date but before the approval of the financial statements were considered as adjusting events. Accordingly, provision for proposed dividend was recognised as a liability. Under Ind AS, such dividends are recognised when the same is approved by shareholders in the general meeting. Accordingly, the liability for proposed dividend (including tax thereon) of Rs. 179.74 lakhs as at 1st April, 2016 included under short term provisions has been reversed with corresponding adjustment to retained earnings. Consequently, the total equity increased by an equivalent amount.

Notes to Consolidated Financial Statements (Contd.)

(All amounts in Rs. Lakhs, unless otherwise stated)

5 Foreign Currency Translation Reserve

The group has elected to reset the balance appearing in the foreign currency translation reserve to zero as on 1st April, 2016. Accordingly, translation reserve balance under previous GAAP of Rs. 541.88 lakhs has been transferred to retained earnings. There is no impact on total equity as a result of this adjustment.

6 Remeasurements of post-employment benefit obligations

Under Ind AS, remeasurements i.e. actuarial gains and losses and the return on plan assets, excluding amounts included in the net interest expense on the net defined benefit liability are recognised in other comprehensive income instead of profit or loss. Under the previous GAAP, these remeasurements were forming part of the profit or loss for the year. As a result of this change, the profit for the year ended 31st March 2017 increased by Rs. 29.43 lakhs. There is no impact on the total equity as at 31st March 2017.

7 Bank overdraft

Under Ind AS, bank overdrafts repayable on demand which form an integral part of the cash management process are included in cash and cash equivalents for the purpose of presentation of statement of cash flows. Under previous GAAP, bank overdrafts were considered as part of borrowings and movements in bank overdrafts were shown as part of financing activities. Consequently, cash and cash equivalents have reduced by Rs. lakhs as at 1,456.76 31st March 2017 (1st April 2016: Rs. 1,658.64 lakhs) and cash flows from financing activities for the year ended 31st March 2017 have also increased by Rs. 184.26 lakhs to the effect of the movements in bank overdrafts.

8 Other Comprehensive Income

Under Ind AS, all items of income and expenses recognized in a period should be included in profit or loss for the period, unless a standard requires or permits otherwise. Items of income and expenses that are not recognized in profit or loss but are shown in statement of profit or loss as 'Other Comprehensive Income' includes remeasurements of defined benefit plans and effective portion of gains and losses on cash flow hedging instruments. The concept of other comprehensive income did not exist under previous GAAP.

9 Deferred tax

Deferred tax have been recognised on the adjustments made on transition to Ind AS.

10 Retained Earnings

Retained earnings as at 1st April, 2016 has been adjusted consequent to the above Ind AS transition adjustments.

INDEPENDENT AUDITORS' REPORT

To the members of Onward Technologies Limited

Report on the Standalone Indian Accounting Standards (Ind AS) Financial Statements

1. We have audited the accompanying standalone financial statements of Onward Technologies Limited ("the Company"), which comprise the Balance Sheet as at 31st March, 2018, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Standalone Ind AS Financial Statements

2. The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone Ind AS financial statements to give a true and fair view of the financial position, financial performance (including other comprehensive income), cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified in the Companies (Indian Accounting Standards) Rules, 2015 (as amended) under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

3. Our responsibility is to express an opinion on these standalone Ind AS financial statements based on our audit.
4. We have taken into account the provisions of the Act and the Rules made thereunder including the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under.
5. We conducted our audit of the standalone Ind AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act and other applicable authoritative pronouncements issued by the Institute of Chartered Accountants of India. Those Standards and pronouncements require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone Ind AS financial statements are free from material misstatement.
6. An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone Ind AS financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone Ind AS financial statements that give a true and fair view, in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone Ind AS financial statements.
7. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

Opinion

8. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Act in the manner so required and give a

Independent Auditors' Report (Contd.)

true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2018, and its total comprehensive income (comprising of profit and other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

Other Matter

9. The comparative financial information of the Company for the year ended 31st March, 2017 and the transition date opening balance sheet as at 1st April, 2016 included in these standalone Ind AS financial statements, are based on the previously issued statutory financial statements for the years ended 31st March, 2017 and 31st March, 2016 prepared in accordance with the Companies (Accounting Standards) Rules, 2006 (as amended) which were audited by the predecessor auditor who expressed an unmodified opinion vide reports dated 22nd May, 2017 and 16th May, 2016 respectively. The adjustments to those financial statements for the differences in accounting principles adopted by the Company on transition to the Ind AS have been audited by us.

Our opinion is not qualified in respect of this matter.

Report on Other Legal and Regulatory Requirements

10. As required by the Companies (Auditor's Report) Order, 2016, issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act ("the Order"), and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in the **Annexure B** a statement on the matters specified in paragraphs 3 and 4 of the Order.
11. As required by Section 143 (3) of the Act, we report that:
- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - (c) The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), the Cash Flow Statement and the Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.
 - (d) In our opinion, the aforesaid standalone Ind AS financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act.
 - (e) On the basis of the written representations received from the directors as on 31st March, 2018 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2018 from being appointed as a director in terms of Section 164 (2) of the Act.
 - (f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in **Annexure A**.
 - (g) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our knowledge and belief and according to the information and explanations given to us:
 - i. The Company has disclosed the impact, if any, of pending litigations as at 31st March, 2018 on its financial position in its standalone Ind AS financial statements – Refer Note 28;
 - ii. The Company has long-term contracts including derivative contracts as at 31st March, 2018 for which there were no material foreseeable losses.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company during the year ended 31st March, 2018.

Independent Auditors' Report (Contd.)

- iv. The reporting on disclosure relating to Specified Bank Notes is not applicable to the Company for the year ended 31st March, 2018.

Annexure A to Independent Auditors' Report

Referred to in paragraph 11(f) of the Independent Auditor's Report of even date to the members of Onward Technologies Limited on the Standalone Financial Statements of the year ended 31st March 2018.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Act

1. We have audited the internal financial controls over financial reporting of Onward Technologies Limited ("the Company") as of 31st March, 2018 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing deemed to be prescribed under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of

Independent Auditors' Report (Contd.)

internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

6. A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO SEPARATE FINANCIAL STATEMENTS

Background : Onward Technologies Limited (“the Company”) is a public limited company domiciled in India and was incorporated on July 18, 1991 under the provisions of the Companies Act, 1956. Onward Technologies is a leading global player in Mechanical Engineering Design and IT Consulting, listed at both Bombay Stock Exchange and National Stock Exchange. The Company has its registered office in Mumbai and another office in Pune. The Company has a branch in United Kingdom.

I. Significant Accounting Policies:

This note provides a list of the significant accounting policies adopted in the preparation of these separate financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation

(i) Compliance with Ind AS

The separate financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

The separate financial statements up to year ended 31st March, 2017 were prepared in accordance with the accounting standards notified under Companies (Accounting Standard) Rules, 2006 (as amended) and other relevant provisions of the Act.

These financial statements are the first separate financial statements of the Company under Ind AS. Refer note 37 for an explanation of how the transition from previous GAAP to Ind AS has affected the Company’s financial position, financial performance and cash flows.

The Board of Directors have authorized these financial statements for issue on 11th May, 2018.

(ii) Historical cost convention

The separate financial statements have been prepared on a historical cost basis, except for the following:

- Certain financial assets and liabilities (including derivative instruments) which are measured at fair value
- Defined benefit plans — plan assets measured at fair value;

(iii) Amended standards adopted by the company

The amendment to Ind AS 7 require disclosure of changes in liabilities arising from financing activities, see note 15.

All assets and liabilities have been classified as current or non-current as per the Company’s operating cycle and other criteria set out in the Schedule III of the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current and non - current classification of assets and liabilities.

(b) Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker is the Company’s Managing Director. Refer note 30 for segment information presented.

(c) Foreign currency translation

(i) Functional and presentation currency

Items included in the separate financial statements of the Company are measured using the currency of the primary economic environment in which the entity operates (‘the functional currency’). The separate financial statements are presented in Indian rupee (INR), which is the Company’s functional and presentation currency.

Notes to Separate Financial Statements (Contd.)**(ii) Transactions and balances**

Foreign currency transactions (including transaction of foreign branches) are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are recognised in profit or loss and are presented in the Statement of Profit and Loss on a net basis.

(d) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are net of returns, trade allowances, rebates, goods and service tax (GST) and amounts collected on behalf of third parties.

The Company recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of the Company's activities as described below.

(i) Revenue from software products:

Revenue from sale of third party software products is recognized on receipt of acknowledgement from customers.

(ii) Revenue from time and material contracts:

In respect of revenue received from contracts dependent on time and material basis, revenues and costs are recognized when related service are rendered.

(iii) Revenue from fixed price contracts:

In case of fixed price contracts, revenue is recognized over the life of contract based on the milestones achieved as agreed upon in the contract on "percentage-of-completion" method. Percentage of completion is determined based on the efforts or costs incurred to date as a percentage of total estimated efforts or costs required to complete the project. The efforts or cost expended are used to measure progress towards completion as there is a direct relationship between input and productivity. If the Company does not have a sufficient basis to measure the progress of completion or to estimate the total contract revenues and costs, revenue is recognized only to the extent of contract cost incurred for which recoverability is probable. When total cost estimates exceed revenues in an arrangement, the estimated losses are recognized in the statement of profit or loss in the period in which such losses become probable based on the current contract estimates.

(iv) Revenue from training, annual maintenance and fixed price maintenance contracts:

Revenue through training, annual maintenance contracts and fixed price maintenance contracts are recognized ratably over the period in which services are rendered/ training is provided.

(v) Revenue from sale of user licenses:

Revenue from the sale of user licenses for software applications is recognized on transfer of the title in the user license.

Revenue on time and material contracts are recognized as unbilled revenue when the related services are rendered from the end of last billing up to the reporting date.

(vi) Other Income

Dividend income is recognized in the Statement of Profit and Loss only when the Company's right to receive dividend is established which is generally when the shareholders approve the dividend.

Interest is recognized on time proportionate basis taking into account the amount outstanding and the rate applicable.

Notes to Separate Financial Statements (Contd.)

(e) Government Grant

Grants from the government are recognized at their fair value when there is a reasonable assurance that the grant will be received and the Company will comply with all the attached conditions.

Government grant relating to income are deferred and recognized in the profit or loss over the period necessary to match them with the costs that they are intended to compensate and presented with other income.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to profit or loss on a straight-line basis over the expected lives of related assets and presented within other income.

(f) Income tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulations is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the separate financial statements. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

(g) Leases

As a lessee

Leases of property, plant and equipment, where the Company, as lessee has substantially all the risks and rewards of ownership are classified as finance leases. Assets acquired under finance leases are recognized at the lower of the fair value of the leased assets at inception of the lease and the present value of minimum lease payments. Lease payments are apportioned between the finance charge and the reduction of the outstanding liability. The finance charge is allocated to periods during the lease term at a constant periodic rate of interest on the remaining balance of the liability.

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease, unless the

Notes to Separate Financial Statements (Contd.)

payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

(h) Impairment of assets

The management periodically assesses, using external and internal sources, whether there is an indication that an asset may be impaired. If an asset is impaired, the Company recognises an impairment loss as the excess of the carrying amount of the asset over the recoverable amount. Recoverable amount is higher of an asset's or cash generating unit's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. An impairment loss is reversed to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined if no impairment loss had previously been recognised.

(i) Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash onhand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

(j) Trade receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

(k) Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised as part of the cost of that asset. Other borrowing costs are recognised as an expense in the year in which they are incurred.

(l) Investments and other Financial assets

(i) Classification

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

The Company reclassifies debt investments when and only when its business model for managing those assets changes.

(ii) Measurement

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the

Notes to Separate Financial Statements (Contd.)

acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss statement.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. The Company classifies its debt instruments as follows:

- **Amortised cost** : Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in other income using the effective interest rate method.

Equity instruments

The Company subsequently measures equity investment at fair value. The Company's Management elects to present fair value gains and losses on equity investments in other comprehensive income on an instrument by instrument basis.

(iii) Impairment of financial assets

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Refer Note 34 for details of credit risk.

For trade receivables, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

(iv) Derecognition of financial assets

A financial asset is derecognised only when

- The Company has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised. Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

(m) Derivatives

The Company enters into certain derivative contracts to hedge risks which are not designated as hedges. Such contracts are accounted for at fair value through profit or loss and are included in Other income or Other expenses, as the case may be.

The full fair value of a derivative is classified as a Non-current asset or liability when the remaining maturity of the hedged item is more than 12 months; it is classified as a current asset or liability when the remaining maturity of the hedged item is less than 12 months.

Notes to Separate Financial Statements (Contd.)

(n) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the company or the counterparty.

(o) Property, plant and equipment

All items of property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Depreciation methods, estimated useful lives and residual value

Depreciation is provided on the straight-line method over the useful lives of assets as prescribed in Schedule II to the Companies Act, 2013 (Act).

Leasehold improvements are depreciated over the period of the lease agreement.

The asset's residual values and useful lives are reviewed and adjusted if appropriate, at the end of the reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss within other income/ other expenses respectively.

Transition to Ind AS

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognized as at 1st April, 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

(p) Intangible assets

Intangible assets are stated at acquisition cost net of tax/ duty credits availed, if any, and net of accumulated amortisation. Gains or losses arising from the retirement or disposal of an intangible asset are determined as the difference between the net disposal proceeds and the carrying amount of the asset and recognised as income or expense in the profit or Loss. Intangible assets are amortized on the straight line method as follows:

Asset	Useful life
Software	2 to 6 years

Transition to Ind AS

On transition to Ind AS, the Company has elected to continue with the carrying value of all of intangible assets recognized as at 1st April, 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of intangible assets.

Notes to Separate Financial Statements (Contd.)

(q) Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. Trade and other payables are unsecured and are presented as current liabilities unless payment is not due within twelve months determined by the Company after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

(r) Borrowings

Borrowings are initially recognized at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortized cost. Any differences between the proceeds (net of transaction costs) and the redemption amount is recognized in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognized as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the drawn down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalized as a prepayment for liquidity services and amortized over the period of the facility to which it relates.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been distinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss as other income/(expenses).

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the separate financial statements for issue, not to demand payment as a consequence of the breach.

(s) Provisions and contingent liabilities

Provisions are recognised when the Company has a present, legal or constructive obligation as a result of a past event and it is probable that an outflow of resources will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made. Provisions are determined based on the best estimate required to settle the obligation at the Balance Sheet date. Provisions are reviewed at each balance sheet date and adjusted to reflect current best estimates. Provisions are not recognised for future operating losses.

Contingent liabilities are disclosed by way of a note to the separate financial statements when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

(t) Employee Benefits

(i) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

Notes to Separate Financial Statements (Contd.)

(ii) Other long-term employee benefit obligations

The liabilities for privileged leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss. The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

(iii) Post-employment obligations

The Company operates the following post-employment schemes:

- (a) Defined benefit plans—gratuity
- (b) Defined contribution plans - Provident fund, employee state insurance scheme and social security contributions.

(a) Defined benefit plans - Gratuity

The Company provides for gratuity, a defined benefit plan (the “Gratuity Plan”) covering eligible employees in accordance with the Payment of Gratuity Act, 1972. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death or termination of employment, of an amount based on the respective employee’s salary and the tenure of employment.

The liability or asset recognised in the balance sheet in respect of defined benefit pension and gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

(b) Defined contribution plans – Provident fund, Employee state insurance scheme and social security contributions

The Company pays provident fund, employee state insurance and social security contribution for all employees to publicly administered funds as per local regulations. The Company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognized as employee benefit expense when they are due.

Notes to Separate Financial Statements (Contd.)**(iv) Share-based payments**

Share-based compensation benefits are provided to employees via the Onward ESOP Scheme 2009.

The fair value of the options granted under the Onward ESOP Scheme is recognized as an employee benefit expense with a corresponding increase in equity. The total amount to be expensed is determined by reference to the fair value of the options granted:

- Including any market performance conditions (e.g. the entity's share price)
- Excluding the impact of any service and non-market performance vesting conditions (e.g. profitability, sales growth targets and remaining an employee of the entity over a specified time period), and
- Including the impact of any non-vesting conditions (e.g. the requirement for employees to save or holding shares for specified period of time).

The total expenses is recognized over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. At the end of each period, the entity revises its estimates of the number of options that are expected to vest based on the non-market vesting and service conditions. It recognizes the impact of the revision to original estimates, if any, in profit or loss, with a corresponding adjustment to equity.

(u) Contributed equity

Equity shares are classified as equity.

Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

(v) Earnings per share**(i) Basic earnings per share**

Basic earnings per share is calculated by dividing

- the profit attributable to owners of the Company
- by the weighted average number of equity shares outstanding during the financial year.

(ii) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

(w) Rounding of amounts:

All amounts disclosed in the separate financial statements and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III, unless otherwise stated.

2. Critical judgements and estimates

The preparation of financial statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. Management also needs to exercise judgement in applying the Company's accounting policies. This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed.

Notes to Separate Financial Statements (Contd.)

Judgements

In the process of applying the Company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognized in the financial statements:

i. Legal contingencies

The Company has received various orders and notices from tax authorities in respect of direct taxes. The outcome of these matters may have a material effect on financial position, results of operation of cash flows. Management regularly analyzes current information about these matters and provides provisions for probable contingent losses including the estimate of legal expenses to resolve the matters. In making the decisions regarding the need for loss provisions, management considers the degree of probability of an unfavorable outcome and the ability to make a sufficiency reliable estimate of the amount of loss. The filing of suit or formal assertion of a claim against the Company or the disclosure of any such suit or assertions, does not automatically indicate that a provision of a loss may be appropriate.

ii. Segment Reporting

Ind-AS 108 Operating Segments requires management to determine the reportable segments for the purpose of disclosure in financial statements based on the internal reporting reviewed by Chief Operating Decision Maker (CODM) to assess performance and allocate resources. The standard also requires management to make judgments with respect to aggregation of certain operating segments into one or more reportable segment.

The Company has determined that the Chief Operating Decision Maker (CODM) is the Managing Director (MD), based on its internal reporting structure and functions of the MD. Operating segments used to present segment information are identified based on the internal reports used and reviewed by the MD to assess performance and allocate resources.

Critical estimates

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

i. Share-based payments

The Company initially measures the cost of equity-settled transactions with employees using the Black-Scholes model to determine the fair value of the options. Estimating the fair value of the share-based payment transactions requires determination of the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires determination of the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them. The assumptions and models used for estimating the fair value for share-based payments are disclosed in Note 36.

ii. Fair value measurement of unquoted financial instrument

When the fair values of the financial assets and financial liabilities recorded in the balance sheet cannot be measured based on the quoted prices in active markets, their fair value is measured using the valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Estimates include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair values of financial instruments. Refer note 31 for further disclosures.

Notes to Separate Financial Statements (Contd.)**iii. Useful lives of Property, plant and equipment and intangible assets**

The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. Increasing an asset's expected life or its residual value would result in a reduced depreciation charge in the statement of profit and loss.

The useful lives and residual values of assets are determined by management at the time the asset is acquired and reviewed annually for appropriateness. The lives are based on historical experience with similar assets as well as anticipation of future events which may impact their life such as changes in technology.

iv. Impairment of Trade Receivables

The impairment provisions for financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

v. Defined benefit obligations

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation. The mortality rate is based on Indian Assured Lives Mortality (2006-08) Ultimate. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates. For further details about gratuity obligations are given in Note 18.

A Defined contribution plan

(i) Provident fund

The Company has certain defined contribution plans. Contributions are made to provident fund for employees at the rate of 12% of basic salary as per regulations. The contributions are made to registered provident fund administered by the government. The obligation of the Company is limited to the amount contributed and it has no further contractual nor any constructive obligation. The expense recognised during the period towards defined contribution plan is Rs. 238.91 Lakhs (31st March 2017 - Rs. 207.56 Lakhs).

B Gratuity

The Company provides for gratuity for employees in India as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/termination is the employees last drawn basic salary per month computed proportionately for 15 days salary multiplied for the number of years of service. The gratuity plan is a funded plan and is administered through group gratuity scheme with Life Insurance Corporation of India.

The Payment of Gratuity (Amendment) Act, 2018 was notified by the Central Government on 29 March 2018. The amendment increases the existing ceiling limit of the amount of gratuity payable to employees who have completed five years of continuous service from rupees 10 Lakhs to rupees 20 Lakhs. The amendment has also increased the maximum maternity leave from 12 weeks to 26 weeks in the Payment of Gratuity Act 1972 consistent with the requirement in the Maternity Benefit Act, 1961. Maternity leave to the extent specified in the act shall be excluded while determining the period of continuous service for women employees.

Due to the change, the Company has recognized past service cost of Rs. 3.30 Lakhs for the year ended 31st March, 2018. Refer the table below for further details of the same.

III Significant estimates

The significant actuarial assumptions were as follows :

	31 st March, 2018	31 st March, 2017	1 st April, 2016
Discount rate	7.90%	7.60%	8.00%
Salary growth rate	3.00%	3.00%	3.00%
Expected return on plan assets	7.60%	8.00%	7.90%
Withdrawal rate	2.00%	2.00%	2.00%
Expected average remaining working lives of employees (in years)	19.61	19.71	19.77

IV Sensitivity of actuarial assumptions

The sensitivity of defined obligation to changes in the weighted principal assumptions is:

Assumption	Impact on defined benefit obligation	
	31 st March, 2018	31 st March, 2017
Discount rate		
1 % increase	(15.63)	(15.24)
1 % decrease	18.53	17.79
Salary growth rate		
1 % increase	16.84	16.53
1 % decrease	(14.44)	(14.42)
Withdrawal rate		
1 % increase	10.03	8.87
1 % decrease	(11.33)	(10.42)

The above sensitivity analyses are based on a change in an assumption while holding all the other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

Projected benefits payable from the fund in future years from the date of reporting:

	31 st March, 2018	31 st March, 2017
Less than a year	23.22	4.10
Between 2 to 5 years	53.68	47.69
Between 6 to 10 years	147.70	135.90
Total	224.60	187.69

The weighted duration of the defined benefit obligation is 17.88 years. (31st March, 2017 : 18.29 years)

V The major categories of plan assets are as follows:

	31 st March, 2018	31 st March, 2017	1 st April, 2016
Funds managed by insurer	100%	100%	100%

VI Risk Exposure

Through its defined benefit plan, the Company is exposed to a number of risks, the most significant of which are detailed below:

Asset volatility

The plan liabilities are calculated using a discount rate set with reference to bond yields; if plan assets under perform this yield, this will create a deficit. All plan assets are maintained in a trust fund managed by a public sector insurer i.e., LIC of India. LIC has a sovereign guarantee and has been providing consistent and competitive returns over the years. The Company has opted for a traditional fund where in all assets are invested primarily in risk averse markets. The Company has no control over the management of funds but this option provides a high level of safety for the total corpus. A single account is maintained for both the investment and claim settlement and hence, 100% liquidity is ensured. Also, interest rate and inflation risk are taken care of.

Changes in bond yields

A decrease in bond yields will increase plan liabilities, although this will be partially offset by an yields increase in the value of the plans' bond holdings.

Future salary escalation and inflation risk

Since price inflation and salary growth are linked economically, they are combined for disclosure purposes. Rising salaries will often result in higher future defined benefit payments resulting in higher present value of liabilities. Further, unexpected salary increases provided at the discretion of the management may lead to uncertainties in estimating this increasing risk.

Asset-Liability mismatch risk

Risk which arises if there is a mismatch in the duration of the assets relative to the liabilities. By matching duration with the defined benefit liabilities, the Company is successfully able to neutralize valuation swings caused by interest rate movements. Hence, companies are encouraged to adopt asset-liability management.

C Leave Encashment

The leave obligations cover the Company's liability for privilege leave which are as follows :

	31 st March, 2018	31 st March, 2017	1 st April, 2016
Current leave obligations expected to be settled within the next 12 months	16.95	12.51	15.13

i) Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

Financial assets and liabilities measured at fair value - recurring fair value measurements	Level 1	Level 2	Level 3	Total
At 31st March, 2018				
Financial assets				
Derivative financial instrument not designated as hedges				
Foreign exchange forward contracts	-	15.87	-	15.87
Investments in preference shares	-	-	993.87	993.87

Financial assets and liabilities measured at fair value - recurring fair value measurements	Level 1	Level 2	Level 3	Total
At 31st March, 2017				
Financial assets				
Derivative financial instrument not designated as hedges				
Foreign exchange forward contracts	-	63.86	-	63.86
Investments in preference shares	-	-	955.80	955.80

Financial assets and liabilities measured at fair value - recurring fair value measurements	Level 1	Level 2	Level 3	Total
At 1st April, 2016				
Financial assets				
Derivative financial instrument not designated as hedges				
Foreign exchange forward contracts	-	19.83	-	19.83

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. However the Company does not have any financial instruments that are measured using Level 1 inputs.

Level 2: The fair value of derivatives is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in Level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

This is the case for unlisted preference shares included in Level 3.

ii) Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include:

The fair value of forward foreign exchange contracts is determined using forward exchange rates at the balance sheet date

All of the resulting fair value estimates are included in Level 2 except for unlisted preference shares where the fair values have been determined based on present values and the discount rates used were adjusted for counter party or own credit risk.

iii) Fair value measurement using significant unobservable inputs (Level 3)

The following table presents the changes in level 3 items for the periods ended 31st March, 2018 and 31st March, 2017 :

Particulars	Amount
Unlisted Preference Shares	
As at 1st April, 2016	-
Acquisitions	900.00
Gain/(losses) recognized in Statement of Profit or loss	55.80
As at 31st March, 2017	955.80
Acquisitions	-
Gain/(losses) recognized in Statement of Profit or loss	38.07
As at 31st March, 2018	993.87

Notes to Separate Financial Statements (Contd.)

(All amounts in Rs. Lakhs, unless otherwise stated)

iv) Valuation Inputs and relationships to fair value

The following table summarises the quantitative information about the significant unobservable inputs used in level 3 fair value measurements.

	Impact on profit or loss	
	31 st March, 2018	31 st March, 2017
Unquoted Preference Shares		
Significant Unobservable Input - volatility - 58% (31 st March, 2017 : 62%)		
Increase by 5%	106.13	20.20
Decrease by 5%	78.13	(6.80)
Significant Unobservable Input - WACC - 15.50% (31 st March, 2017 : Nil)		
Increase by 1%	58.13	-
Decrease by 1%	135.13	-

v) Valuation process

Specific valuation techniques used to value financial instruments include the fair value of foreign exchange forward contracts using forward exchange rates at the balance sheet date.

The main level 3 inputs for unlisted preference shares used by the Company are derived and evaluated as under :

- Risk free rate of return is calculated based on the yield on 10 year Government Securities yield as at the valuation date.
- Share price volatility is determined on the basis of historical prices of shares of the peer companies as adjusted for any expected changes to the future volatility due to publicly available information.

vi) Fair value of financial assets and liabilities measured at amortised cost

The fair value of all financial instruments carried at amortised cost are not materially different from their carrying amounts, since they are either short-term in nature or the interest rate applicable are equal to the current market rate of interest.

32 Financial risk management

The Company's activities expose it to market risk, liquidity risk and credit risk. This note explains the sources of risk which the entity is exposed to and how the entity manages the risk.

(A) Credit risk**(i) Credit risk management**

The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from deposits with banks and other financial instruments. For banks and other financial institutions, only high rated banks/ financial institutions are accepted. The balances with banks, security deposits are subject to low credit risk and the risk of default is negligible or nil. Hence, no provision has been created for expected credit loss for credit risk arising from these financial assets. The Company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in the credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk the company compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportive forward-looking information, for eg, external credit rating (to the extent available), actual or expected significant adverse changes in business, financial or economic conditions that are expected to cause a significant change to borrower's ability to meet its obligations.

Trade Receivables

The credit risk from customer receivables is recorded and monitored on an ongoing basis. Responsibilities and duties relating to credit risks are governed by an internal directive. This mainly concerns the stipulation of payment terms, fixing of credit limits, release of deliveries, and receivables monitoring. The credit risk is considered low given the sound credit ratings and past history of timely payments being made by the customers.

Reconciliation of loss allowance provision

Loss allowance on 1st April, 2016	-
Changes in loss allowance	60.32
Loss allowance on 31st March, 2017	60.32
Changes in loss allowance	-
Loss allowance on 31st March, 2018	60.32

(B) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due. Due to the dynamic nature of the underlying business, the Company maintains flexibility in funding by maintaining availability under committed credit lines.

(i) Maturities of financial liabilities

The tables below analyse the Company's financial liabilities into relevant maturity group based on their contractual maturities for :

31st March, 2018	< 1 year	> 1 year

(C) Market risk**i) Foreign currency risk**

The company operates internationally and thereby exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to the USD, Euro and GBP. Foreign exchange risk arises from future commercial transactions and recognised assets denominated in a currency that is not the company's functional currency (INR). The company uses foreign exchange forward contracts to hedge its exposure in foreign currency risk. The risk is measured through forecast of foreign currency transactions.

i) Foreign currency risk exposure

The Company's exposure to foreign currency risk at the end of the reporting period expressed in INR, are as follows :-

Particulars	31 st March, 2018			31 st March, 2017			1 st April, 2016		
	USD	Euro	GBP	USD	Euro	GBP	USD	Euro	GBP
Financial assets

Derivative instruments									
- Foreign exchange forward contracts - Sell foreign currency	15.87	-	-	63.86	-	-	19.83	-	-
Net exposure to foreign currency risk (assets)	15.87	235.61	295.55	83.44	349.35	3.84	19.83	351.43	9.74
Financial liabilities									
Trade payables	122.80	41.92	3.66	534.63	102.33	-	759.85	117.11	1.43
Borrowings	-	-	-	105.11	-	-	336.33	-	-
Net exposure to foreign currency risk (liabilities)	122.80	41.92	3.66	639.74	102.33	-	1,096.18	117.11	1.43

ii) **Sensitivity**

The sensitivity of profit and loss to changes in the exchange rates arises mainly from foreign currency denominated financials instruments:

Particulars	Impact on Profit after tax	
	31 st March, 2018	31 st March, 2017
USD sensitivity		
INR/USD - Increase by 5% (31 March 2017 - 5%)	(5.35)	(27.82)
INR/USD - Decrease by 5% (31 March 2017 - 5%)	5.35	27.82
EURO sensitivity		
INR/Euro - Increase by 5% (31 March 2017 - 5%)	9.68	12.35
INR/Euro - Decrease by 5% (31 March 2017 - 5%)	(9.68)	(12.35)
GBP sensitivity		
INR/GBP - Increase by 5% (31 March 2017 - 5%)	14.59	0.19
INR/GBP - Decrease by 5% (31 March 2017 - 5%)	(14.59)	(0.19)

II) **Interest rate risk**

- (i) The Company's interest rate risk arises from long-term and short-term borrowings. Borrowings obtained at variable rates expose the Company to cash flow interest rate risk. Borrowings issued at fixed rates expose the Company to fair value interest rate risk.

Management closely tracks the base interest rate movements on regular basis. Based on regular review, Management assesses the need to hedge interest rate risk. Management reviews the future movement in base rate against different factors such as overall micro and macro economic factors, liquidity in the spending cycle. Further, on a regular basis, Management assesses the possibility of entering into new facilities which would reduce the future finance cost which helps the Management to mitigate risk related to interest rate movement.

The exposure of the Company's borrowings to interest rate changes at the end of the reporting period are as follows:

	31 st March, 2018	31 st March, 2017	1 st April, 2016
Variable rate borrowings	1,745.12	1,483.17	1,442.87
Fixed rate borrowings	-	105.11	336.33
Nil rate borrowings	100.34	100.34	100.84
Total borrowings	1,845.46	1,688.61	1,880.04

Sensitivity

The Company's policy is to minimize the interest rate cash flow risk exposure on borrowing. The Company has exposure to local currency only. The local currency loans are linked to bank base rate/ marginal cost of funds based lending (MCLR).

The sensitivity of profit or loss to changes in the interest rates is tabulated below:

	Impact on Profit after tax	
	31 st March, 2018	31 st March, 2017
Interest rate - Increase by 50 basis points (50bps) *	(8.07)	(7.32)
Interest rate - Decrease by 50 basis points (50bps) *	8.07	7.32

* Holding all other variables constant

33 Capital Management**a) Risk management**

The Company's objectives when managing capital are to safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders, and maintain an optimal capital structure to reduce the cost of capital. For the purpose of the Company's capital management, capital includes issued equity capital and all other equity reserves attributable to the equity holders of the parent. The primary objective of the Company's capital management is to maximise the shareholders value. In order to achieve this objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements.

No changes were made in the objectives, policies or processes for managing capital during the years ended 31st March, 2018 and 31st March, 2017.

34 The list of standards issued but not yet effective:

The Ministry of Corporate Affairs (MCA) has notified the Companies (Indian Accounting Standards) Amendment Rules, 2018 (the 'Rules') on March 28, 2018. The rules notify the new revenue standard Ind AS 115, Revenue from contracts with customers and also bring in amendments to existing Ind AS. The rules shall be effective from reporting periods beginning on or after 1st April, 2018 and cannot be early adopted.

Introduction of Ind AS 115, 'Revenue from contracts with customers':

Ind AS 115, Revenue from contracts with customers deals with revenue recognition and establishes principles for reporting useful information to users of financial statements about the nature, amount, timing and uncertainty of revenue and cash flows arising from an entity's contracts with customers. Revenue is recognised when a customer obtains control of a promised good or service and thus has the ability to direct the use and obtain the benefits from the good or service in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods and services. The standard replaces Ind AS 18 Revenue and Ind AS 11 Construction contracts and related appendices. The Company is in the process of evaluating the impact on the financial statements in terms of the amount and timing of revenue recognition under the new standard.

Amendment to Ind AS 21, 'Effect of changes in foreign exchange rates':

The MCA has notified Appendix B to Ind AS 21, Foreign currency transactions and advance consideration. The appendix clarifies how to determine the date of transaction for the exchange rate to be used on initial recognition of a related asset, expense or income where an entity pays or receives consideration in advance for foreign currency-denominated contracts. For a single payment or receipt, the date of the transaction should be the date on which the entity initially recognises the non-monetary asset or liability arising from the advance consideration (the prepayment or deferred income/contract liability). If there are multiple payments or receipts for one item, date of transaction should be determined as above for each payment or receipt. The Company is in the process of evaluating the impact on the financial statements under the new standard.

Amendment to Ind AS 40, 'Investment Property':

The amendments to Ind AS 40 clarify that transfers to, or from, investment property can only be made if there has been a change in use that is supported by evidence. A change in use occurs when the property meets, or ceases to meet, the definition of investment property. A change in intention alone is not sufficient to support a transfer. The list of evidence for a change of use in the standard was re-characterised as a non-exhaustive list of examples and scope of these examples have been expanded to include assets under construction/development and not only transfer of completed properties. The company does not have any investment property and therefore the amendment is not expected to have any impact on the financial statements.

Amendment to Ind AS 12, 'Income taxes':

The amendments clarify the accounting for deferred taxes where an asset is measured at fair value and that fair value is below the asset's tax base. They also clarify certain other aspects of accounting for deferred tax assets set out below:

- A temporary difference exists whenever the carrying amount of an asset is less than its tax base at the end of the reporting period.
- The estimate of future taxable profit may include the recovery of some of an entity's assets for more than its carrying amount if it is probable that the entity will achieve this. For example, when a fixed-rate debt instrument is measured at fair value, however, the entity expects to hold and collect the contractual cash flows and it is probable that the asset will be recovered for more than its carrying amount.
- Where the tax law restricts the source of taxable profits against which particular types of deferred tax assets can be recovered, the recoverability of the deferred tax assets can only be assessed in combination with other deferred tax assets of the same type.
- Tax deductions resulting from the reversal of deferred tax assets are excluded from the estimated future taxable profit that is used to evaluate the recoverability of those assets. This is to avoid double counting the deductible temporary differences in such assessment.

The Company is in the process of evaluating the impact on the financial statements under the new standard.

Employee Stock Option Plan

The Company instituted the 2009 plan for all eligible employees in pursuance of a special resolution approved by the shareholders at the extraordinary general meeting held on 31st August, 2009. Scheme covers grant of options to specified permanent employees of the Company as well as its subsidiaries. Pursuant to scheme, the Company has granted options each to eligible employees at an exercise price of Rs. 10 per equity share of Rs. 10 each. Under the term of scheme, the vesting period shall commence on the expiry of one year from the date of grant of the options to the employees and it will be spread equally over 4 years. 25% of the options will vest in the employees at the end

Notes to Separate Financial Statements (Contd.)

(All amounts in Rs. Lakhs, unless otherwise stated)

of first year, 25% at the end of second year, 25% at the end of third year and balance 25% at the end of fourth year from the grant date. The employee stock options granted shall be capable of being exercised within a period of one year from the date of vesting the options, they would be exercisable by the option holder and the shares arising on exercise of such options shall not be subject to any lock-in period. When exercisable, each option is convertible into four equity share of the Company. Further, in the case of termination of employment, all non-vested options would stand cancelled. Options that have vested but have not been exercised can be exercised within the time prescribed as mentioned above, failing which they would stand cancelled.

Set out below is the summary of the options granted under the plan :

37 First-time adoption**Transition to Ind AS**

These are the Company's first financial statements prepared in accordance with Ind AS.

The accounting policies set out in Note 1 have been applied in preparing the financial statements for the year ended 31st March, 2018, the comparative information presented in these financial statements for the year ended 31st March, 2017 and in the preparation of an opening Ind AS balance sheet at 1st April, 2016 (the Company's date of transition to Ind AS). In preparing its opening Ind AS balance sheet, the Company has adjusted the amounts reported previously in financial statements prepared in accordance with the accounting standards notified under Companies (Accounting Standards) Rules, 2006 (as amended) and other relevant provisions of the Act (previous GAAP or Indian GAAP). An explanation of how the transition from previous GAAP to Ind AS has affected the Company's financial position, financial performance and cash flows is set out in the following tables and notes.

I Exemptions availed**a) Deemed cost - Property, plant and equipment (PPE), intangible assets**

Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its property, plant and equipment and intangible assets as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition after making necessary adjustments for de-commissioning liabilities. This exemption can also be used for intangible assets. Accordingly, the Company has elected to measure all of its property, plant and equipment and intangible assets at their previous GAAP carrying value.

b) Investment in subsidiary

Ind AS 101 permits a first-time adopter to measure an investment in subsidiary either at cost determined as per Ind AS 27 or deemed cost being the fair value as at the date of transition or the previous GAAP carrying amount as at that date. Accordingly, the Company has elected to measure its investment in subsidiary at the previous GAAP carrying value.

c) Share based payments

Ind AS 101 permits a first-time adopter to apply Ind AS 102, Share-based payment, to equity instruments that remain unvested as of the transition date. Accordingly, these options have been measured at fair value as against intrinsic value previously under IGAAP. The excess of stock

compensation expenses measured using fair value over cost recognized under IGAAP using intrinsic value has been adjusted in 'Share Option Outstanding account' with corresponding impact taken to the retained earnings as on the transition date.

II Exceptions applied

a) Estimates

An entity's estimates in accordance with Ind ASs at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were in error. Ind AS estimates as at 1st April, 2016 are consistent with the estimates as at the same date made in conformity with previous GAAP.

b) Classification and measurement of financial assets

Ind AS 101 requires an entity to assess classification and measurement of financial assets (investments in debt instruments) on the basis of the facts and circumstances that exist at the date of transition to Ind AS.

Cash and cash equivalents as at 31st March, 2017		214.83	(757.87)	(543.04)

Note : Under the previous GAAP, the "Balance held as security against bank guarantees" was disclosed as a part of Cash and bank balances. However, under Division II to Schedule III, the same is to be disclosed as Bank balances other than cash and cash equivalents and accordingly the Cash and Cash equivalents have reduced by Rs. 9.47 as on 31st March, 2017 and by Rs. 9.51 as on 1st April, 2016.

Notes to first-time adoption

1 Employee Stock Option expenses

Under the previous GAAP, the cost of equity-settled employee share based plan were recognized using the intrinsic value method. Under Ind AS, the cost of equity settled share-based payment plan is recognized based on the fair value of the options as at the grant date. Consequently, the profit for the year ended 31st March, 2017 reduced by Rs. 67.76 Lakhs. Further, the Company has also allotted options under the ESOP scheme to the employees of the Subsidiary Companies. The fair value charge on account of the same are recognized as Investment in Subsidiaries. The total equity increased by Rs. 111.68 Lakhs (1st April 2016 : Rs. 37.30 Lakhs).

2 Fair valuation of Investment in Preference Shares

Under the previous GAAP, investments in preference shares were classified as long-term investments or current investments based upon the intended holding period and realisability. Long-term investments were carried at cost less provision for other than temporary decline in the value of such investment. Under Ind AS, these investments are required to be measured at fair value. The resulting fair value change of these investments purchased during the year have been recognized in statement of profit or loss. This increased the profit for the year ended 31st March, 2017 by Rs. 55.80 Lakhs.

3 Derivative Financial Instruments - Forward contracts

Under Ind AS, the derivative financial instrument i.e. the foreign currency forward exchange contracts have been fair valued through profit or loss as per Ind AS109. The total equity decreased by Rs.6.30 Lakhs (1st April 2016 : Rs. 6.30 Lakhs).

4 Corporate Guarantee

The Company has provided Corporate Guarantee for the loans availed by its subsidiaries viz, Onward e-Services Limited and Onward Technologies, Inc during the year 2016-17. Under Ind AS, the Company has recognized notional commission income on the corporate guarantees so provided at the interest generally charged by an independent third party for the guarantee. Accordingly, the Company has recognized income of Rs. 28.21 Lakhs for the year ended 31st March, 2017.

5 Security Deposits

Under the previous GAAP, interest free security deposits (that are refundable in cash on the completion of the lease term) are recorded at their transaction value. Under Ind AS, all the financial assets are required to be initially recognized at fair value. Accordingly, the Company has fair valued these security deposits under Ind AS. Difference between fair value and transaction value of security deposits has been recognized as prepaid rent. Consequent to this change, total equity decreased by 1.56 Lakhs as at 31st March, 2017 (1st April, 2016 : Rs. 1.45 Lakhs). The profit for the year ended 31st March, 2017 reduced by 0.11 Lakhs due to amortisation of prepaid rent which is partially offset by notional interest income recognized on security deposit.

6 Remeasurements of post-employment benefit obligations

Under Ind AS, remeasurements i.e. actuarial gains and losses and the return on plan assets, excluding amounts included in the net interest expense on the net defined benefit liability are recognised in other comprehensive income instead of profit or loss. Under the previous GAAP, these remeasurements were forming part of the profit or loss for the year. As a result of this change, the profit for the year ended 31st March, 2017 increased by Rs. 25.58 Lakhs. There is no impact on the total equity as at 31st March, 2017.

7 Bank overdraft

Under Ind AS, bank overdrafts repayable on demand which form an integral part of the cash management process are included in cash and cash equivalents for the purpose of presentation of statement of cash flows. Under previous GAAP, bank overdrafts were considered as part of borrowings and movements in bank overdrafts were shown as part of financing activities. Consequently, cash and cash equivalents have reduced by Rs. 748.42 Lakhs as at 31st March, 2017 (1st April, 2016 : Rs. 1,138.06 Lakhs) and cash flows from financing activities for the year ended 31st March, 2017 have also increased by Rs. 389.59 Lakhs to the effect of the movements in bank overdrafts.

8 Proposed dividend

Under the previous GAAP (Upto 31st March, 2016), dividends proposed by the board of directors after the balance sheet date but before the approval of the financial statements were considered as adjusting events. Accordingly, provision for proposed dividend was recognised as a liability. Under Ind AS, such dividends are recognised when the same is approved by shareholders in the general meeting. Accordingly, the liability for proposed dividend

(including tax thereon) of Rs. 179.74 Lakhs as at 1st April, 2016 included under short term provisions has been reversed with corresponding adjustment to retained earnings. Consequently, the total equity increased by an equivalent amount.

9 Other Comprehensive Income

Under Ind AS, all items of income and expenses recognized in a period should be included in profit or loss for the period, unless a standard requires or permits otherwise. Items of income and expenses that are not recognized in profit or loss but are shown in statement of profit or loss as 'Other Comprehensive Income' includes remeasurements of defined benefit plans and effective portion of gains and losses on cash flow hedging instruments. The concept of other comprehensive income did not exist under previous GAAP.

10 Deferred tax

Deferred tax have been recognised on the adjustments made on transition to Ind AS.

11 Retained Earnings

Retained earnings as at 1st April, 2016 has been adjusted consequent to the above Ind AS transition adjustments

Remote E-Voting:

20. In terms of the provisions of Section 108 of the Companies Act, 2013 read with Companies (Management and Administration) Rules, 2014 as amended from time to time and Regulation 44 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Company is providing to the members facility of voting by electronic means in respect of businesses to be transacted at the Meeting which includes remote e-voting (i.e. voting electronically from a place other than the venue of the Meeting). The Company also proposes to provide the option of voting by means of ballot paper at the venue of Meeting in addition to the remote electronic voting mentioned above. The Company has engaged the services of National Securities Depository Limited (NSDL) for facilitating voting by electronic means.
21. Mr. Nilesh A. Pradhan, Proprietor of M/s. Nilesh A. Pradhan & Co., Practicing Company Secretaries [Membership Number: FCS 5445; CP Number: 3659] [Address: B-201, Pratik Industrial Estate, Mulund Goregaon Link Road, Next to Fortis Hospital, Nahur (West), Mumbai] has been appointed as the scrutinizer to scrutinize the voting through remote e-voting process and voting process at Meeting in fair and transparent manner.

The instructions and process for voting electronically by the members are as under:

The way to vote electronically on NSDL e-Voting system consists of “Two Steps” which are mentioned below:

Step 1: Log-in to NSDL e-Voting system at <https://www.evoting.nsdl.com/>

Step 2: Cast your vote electronically on NSDL e-Voting system.

Details on Step 1 is mentioned below:

1. Visit the e-Voting website of NSDL. Open web browser by typing the following URL: <https://www.evoting.nsdl.com/> either on a Personal Computer or on a mobile.
2. Once the home page of e-Voting system is launched, click on the icon “Login” which is available under ‘Shareholders’ section.
3. A new screen will open. You will have to enter your User ID, your Password and a Verification Code as shown on the screen.

Notice (Contd.)

Alternatively, if you are registered for NSDL eservices i.e. IDEAS, you can log-in at <https://eservices.nsdl.com/> with your existing IDEAS login. Once you log-in to NSDL eservices after using your log-in credentials, click on e-Voting and you can proceed to Step 2 i.e. Cast your vote electronically.

4. Our User ID details are given below:
Manner of holding shares i.e. Demat (NSDL or CDSL) or Physical Your User ID is:
 - a) For Members who hold shares in demat account with NSDL. 8 Character DP ID followed by 8 Digit Client ID. For example, if your DP ID is IN300*** and Client ID is 12***** then your user ID is IN300***12*****.
